Divining Ecstasy:

Divining Ecstasy Sean Shayan, 2001 *Divination and Theurgy in Neoplatonism* Crystal Addey, 2016-05-13 Why did ancient philosophers consult oracles write about them and consider them to be an important part of philosophical thought and practice This book explores the extensive links between oracles and philosophy in Late Antiquity particularly focusing on the roles of oracles and other forms of divination in third and fourth century CE Neoplatonism Examining some of the most significant debates between pagan philosophers and Christian intellectuals on the nature of oracles as a central yet contested element of religious tradition Addey focuses particularly on Porphyry's *Philosophy from Oracles* and Iamblichus' *De Mysteriis* two works which deal extensively with oracles and other forms of divination This book argues for the significance of divination within Neoplatonism and offers a substantial reassessment of oracles and philosophical works and their relationship to one another With a broad interdisciplinary approach encompassing Classics Ancient Philosophy Theology Religious Studies and Ancient History Addey draws on recent anthropological and religious studies research which has challenged and re-evaluated the relationship between rationality and ritual *Divination and Philosophy in the Letters of Paul* Matthew Sharp, 2022-07-25 This book analyses the apostle Paul's claims to receive and interpret knowledge from divine sources within the context of divination in the Graeco Roman world Each chapter studies a particular aspect of divination in Paul's letters in comparison with similar phenomena in the Graeco Roman world dealing in turn with the underlying logic of divination in the context of ancient philosophical conversations visionary experience prophecy and divine speech the divinatory use of texts and the interpretation of signs As such the book forms an in-depth study of divine communication in Paul's letters integrating this theme with the broader topics of cosmology anthropology eschatology and theology While New Testament texts and early Christian figures have traditionally been studied from the vantage point of theological categories such as revelation that isolate early Christianity from its historical context in the Graeco Roman world this book re-reads Paul's thought and practice concerning divine communication within not against the Graeco Roman thought and practice of divination In doing so it illuminates the coherence and connections both between Paul and his historical context and between diverse topics of Paul's letters that have usually been studied in isolation from each other *Izinyanga Zokubula* Henry Callaway, 1884 **Dreams and Divination from Byzantium to Baghdad, 400-1000 CE** Bronwen Neil, 2021 Why did dreams matter to Jews Byzantine Christians and Muslims in the first millennium Bronwen Neil shows how the three faiths took the pagan practice of divining the future from dreams and melded it with their own scriptural traditions to produce a novel and rich culture of dream interpretation *Divination and Oracles* Michael Loewe, Carmen Blacker, 2021-12-30 First published in 1981 *Divination and Oracles* analyses the religious practices of the ancient world as they have been witnessed from Scandinavia to Tibet and Japan from the third millennium BC until the present day Divination and the consultation of oracles formed part of the religious practice of the ancient world and are part of the living folklore of the contemporary

societies They are subjects that are of immediate concern to anthropologists and not infrequently to the historians of early science Written by the specialists in the early history of European and Asian Civilisations the chapters call on the evidence of the written word of history and the surviving artefacts and inscriptions of archaeology They describe the different methods that have been adopted and examine the types of question that feature in man s attempt to seek guidance from other powers The contributions show how an appeal to the irrational can affect the decision of prophet or statesman or the way of life of farmer or sailor and how such an appeal can also stimulate scientific enquiry into the cycles of nature This book is a must read for scholars and researchers of religion comparative religion and ancient history Christian Divination in Late Antiquity Robert Wisniewski,2025-10-01 In Late Antiquity people commonly sought to acquire hidden knowledge about the past the present and the future using a variety of methods While Christians acknowledged that these methods could work effectively in theory they were not allowed to make use of them In practice they behaved in diverse ways Some probably renounced any hope of learning about the future Others resorted to old practices regardless of the consequences A third option was to construct divinatory methods that were effective yet religiously tolerable This book is devoted to the study of such practices and their practitioners and provides answers to essential questions concerning Christian divination How did it develop How closely were Christian methods related to older traditional practices Who used them and in which situations Who offered oracular services And how were they perceived by clerics intellectuals and common people This book studies a phenomenon which is most interesting in itself but also helps to understand religious and social life in the period in which they were swiftly changing o covers the entire field and not a single method o deals with the evidence from all parts of Christendom **Folklore Studies** ,1962 *Ethnomedicine* ,1971 **Theurgia** Iamblichus,1911 **Theurgia, Or, The Egyptian Mysteries** Iamblichus,1911 **The Princeton Theological Review** ,1916 **Oracles and Divination** Michael Loewe,Carmen Blacker,1981 **Divination and the Shamanic Story** Michael Berman,2008 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work **The Ancient World** ,1994 **Studies in Lapp Shamanism**
