

# WILLIE NELSON

## ...and then I wrote

*It is rare that a truly great songwriter is also an exciting vocalist – Johnny Mercer, Hoagy Carmichael, and a handful of others. Now, with pride, Liberty Records presents the latest member of that select group. His name is Willie Nelson.*

*"... Maybe someday you may want to know how it feels when you love, so touch me and you'll know how you'd feel with the Moon"*

A newly talented young man named Willie Nelson wrote those lyrics, and right now he's learning how it feels when you win.

With his songs being recorded as fast as he writes them, and his own records being played all over the country, he is, as they say in his native Texas, "hotter'n a depot stove."

I had heard of Willie Nelson before he ever made a record himself. In fact, everyone in the music business was talking about the new young songwriter who had come out of left field and knocked the old pros out of the best-selling charts with hits like "Hello Walls," "Crazy," and "Funny How Time Slips Away." I had also heard that he sang with a style and feeling you wouldn't believe, so when his first Liberty session was scheduled in Hollywood, I wrangled an invitation.

I went into the studio expecting to find the usual nervous rookie at the microphone. But there was Willie, perched on a high stool, a cigarette in one hand and his chin in the other, calmly recording his own songs as though he'd been doing it all his life. And what songs they were!

*"Step here, across the way on your right. That's where my heart lives. Sometimes I stayed there at night."*

That's a pretty far-out opening for a song, but the way he did it, it seemed the most logical and poignant thing for a heart-breaker man to say.

There's a certain intangible excitement that runs through the engineers, the musicians, and the spectators when a record session is really "coming off": by the time Willie had finished the last song about the wandering love who sees she's back forever and is asked, "How long is forever – this time?" Willie was the only calm person present.

Since then I've learned to really know him, and I'm constantly amazed. I've seen him sit cross-legged on the floor and sing his songs to a roomful of professional songwriters and recording artists and leave lumps in their throats as big as baseballs.

Aside from his songs, he is an accomplished guitarist. And, his unusual singing style is already being imitated by eager young hopefuls.

I'm proud to say that this quiet young man is my friend. I only hope the friendship endures as long as his work will. For I truly believe that in time Willie Nelson will be recognized as one of our greatest all-around talents.

*"...and it's surprising how the time slips away"*

*Charlie Williams*

Charlie Williams, one of the great steel guitarists in the Country and Western field of music, is himself a very successful songwriter, having many hits to his credit, so it is with great authority that he judges Willie's work in this album. We at Liberty agree with Charlie that we have discovered a unique and lasting talent in Willie Nelson.
