Disturbed Violent Offender:

The Disturbed Violent Offender Hans Toch, 2009 Who constitutes the subset of mentally ill who behave violently Which criminal offenders are disturbed Using case histories that serve as vivid depictions of disturbed violent offenders and their offenses the authors address these and other questions on the way to answering the central question of the book What are the relationships between emotional disorders and violence By analyzing the results of a study they conducted of inmates in the New York state prison system the authors shed new light on the relationship between mental illness and violent behavior Through use of cluster analysis resulting in a number of specific typologies they are able to make detailed connections between offenders with mental disorders and the behavioral paths they may follow PsycINFO Database Record c 2009 APA all rights reserved *Crimes of Violence by Mentally Abnormal Offenders* W. Boker, H. Häfner, 1982-05-20 Originally published in German in 1973 and first published in English as this Cambridge edition in 1982 this is a detailed and systematic account of the extent to which mentally abnormal offenders are likely to commit crimes of major violence based upon a study of all the 533 men and women in the Federal German Republic from 1955 to 1964 who were detained in hospitals after committing homicide or near homicide The authors calculated that such patients are no more but also no less dangerous than the rest of the population and that the policy of treating psychotic or seriously subnormal patients in the community does not expose the public to risk The book makes important suggestions for the prevention of such disasters by describing the diagnoses special symptoms and social situations which involve a special risk especially to close relatives and those with whom the patient is emotionally involved **The Disturbed Violent Offender**, 1994 *Serious Violent Offenders* Sally-Anne Gerull, William Lucas, 1993 **Violence among the Mentally III** Sheilagh Hodgins, 2012-12-06 The NATO Advanced Study Institute on the Prevention of Crime and Violence Among the Mentally III was held in May 1999 in Tuscany Italy Participants from 15 countries attended Since care for persons with mental illness schizophrenia major depression bipolar disorder delusional disorder atypical psychoses has been deinstitutionalized some persons with these disorders are committing crimes and serious violence Consequently societies around the world are confronted with a new challenge to provide mental health care and social services to mentally ill persons in a humane way that will prevent illegal behaviours Research in this field has been dominated by investigations designed to improve clinicians accuracy in predicting violent behaviours with little attention focused on the organization and implementation of treatments The premise of the Advanced Study Institute was that treatments must have empirically proven efficacy Both professional ethics and public accountability require empirical evidence that each treatment will alleviate the problem that it targets However despite the fact that Western industrial societies provide treatment for mentally ill persons who have offended there is a very limited base of knowledge on what constitutes effective treatment and how such treatments should be organized and delivered The Advanced Study Institute was an attempt to stimulate and encourage research that will extend this knowledge base The

goals were to review what is known about mentally ill offenders and about effective treatments for them and to provide a framework for the orientation of future investigations designed to improve treatment efficacy *Data Resources of the National Institute of Justice* National Institute of Justice (U.S.),1992 *Crime Types and Criminals* Frank E.
