Conventional Deterrence:

Conventional Deterrence John J. Mearsheimer, 1985-08-21 Conventional Deterrence is a book about the origins of war Why do nations faced with the prospect of large scale conventional war opt for or against an offensive strategy John J Mearsheimer examines a number of crises that led to major conventional wars to explain why deterrence failed He focuses first on Allied and German decision making in the years 1939 1940 analyzing why the Allies did not strike first against Germany after declaring war and conversely why the Germans did attack the West Turning to the Middle East he examines the differences in Israeli and Egyptian strategic doctrines prior to the start of the major conventional conflicts in that region Mearsheimer then critically assays the relative strengths and weaknesses of NATO and the Warsaw Pact to determine the prospects for conventional deterrence in any future crisis He is also concerned with examining such relatively technical issues as the impact of precision guided munitions PGM on conventional deterrence and the debate over maneuver versus attrition warfare Mearsheimer pays considerable attention to questions of military strategy and tactics Challenging the claim that conventional detrence is largely a function of the numerical balance of forces he also takes issue with the school of thought that ascribes deterrence failures to the dominance of offensive weaponry In addition to examining the military consideration underlying deterrence he also analyzes the interaction between those military factors and the broader political considerations that move a nation to war

Conventional Deterrence : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
