Monthly Catalogue, United States Public Documents, 1993 **Monthly Catalog of United States Government Publications**, 1993 **Applied Psycholinguistics**, 2006 [The Potential of Teaching Politics in English](#) Janine Franke, 2012-11-26 Bachelor Thesis from the year 2012 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1 0 Dresden Technical University course Gemeinschaftskunde Sozialkunde English language English abstract Within the last twenty years the concept of content and language integrated learning CLIL has gained enormous popularity among German schools This trend might indicate a positive development towards increased bilingual competence in different fields such as social studies science and technology However many teachers are sceptic They are afraid that by teaching their subject in a foreign language they lose precious time necessary for teaching subject specific contents The question of how an integration of language and content learning should be established is still being discussed It is generally agreed upon the fact that CLIL is not to be considered as simple extension of foreign language learning but as interweaving of content and language of theoretical and practical knowledge Nevertheless emphasis is laid on subject specific contents many teachers are not sure to what extent and in which way the foreign language as the predominant medium of instruction is to be taught Moreover in Saxony there neither is a curriculum nor are there any recommendations specifically developed on the needs of different subjects taught in the integrated way This relatively new concept of instruction requires teachers to be strongly committed and willing to invest extra time and work in order to turn the idea of CLIL into a successful attempt of learning and teaching Considering the effort that has to be made there must be a strong motivation for establishing such learning environments Some teachers may think that by learning contents through the medium of a foreign language foreign language acquisition happens automatically others favour the potential of intercultural learning In order to find out about some of the reasons why content and language integrated learning is currently being such a success in German schools I would like to examine the example of political education in Saxony and its

potential of being taught in English For clarifying the notions applied later on I will firstly consider the linguistic concept of bilingualism and then outline the rationale of content and language integrated learning giving an overview of current approaches towards CLIL Afterwards I will consider general principles and aims of political education and foreign language teaching By analysing and comparing the Saxon curricula of the subjects English and politics I will try to find the benefits and challenges emerging from teaching politics in English

Psychology Applied to Teaching

Jack Snowman, Robert Frederick Biehler, 2006 Scaling up excellence is the key to creating a great organisation It's how a small enterprise expands without losing focus It's how a brilliant new idea or plan developed by the few goes on to be adopted by the many And in hard times and tough situations it's how pockets of smart new thinking overcome cultures of indifference or negativity An organisation that doesn't know how to scale up what is best within it won't achieve long term success Bestselling author Robert Sutton and his Stanford colleague Huggy Rao have devoted nearly a decade to uncovering what it takes to create and spread outstanding performance and in Scaling Up Excellence they share the fruits of their research Drawing on case studies that range from Silicon Valley enterprises to non-profit organisations they provide crucial insights into corporate cultures both good and bad and offer a road map for establishing and stimulating excellence In the process they show how to use premortems when making big decisions about change They reveal why seven is so often the magic number when it comes to team size They examine successful and unsuccessful quests for improvement in hospitals schools and elsewhere And they discuss when a single corporate mindset is best Catholicism and when local variation is preferable Buddhism Scaling Up Excellence is the first management book devoted to what is or should be a core priority for every organisation As such it is destined to become the standard bearer
