Arab Mind Considered A Need For Understanding:

The Arab Mind Considered John Laffin, 1975 **Representations of the Orient in Western Music** Nasser Al-Taei, 2017-07-05 This book focuses on the cultural political and religious representations of the Orient in Western music Dr Nasser Al Taei traces several threads in a vast repertoire of musical representations concentrating primarily on the images of violence and sensuality Al Taei argues that these prevailing traits are not only the residual manifestation of the Ottoman threat to Western Europe but also the continuation of a long and complex history of fear and fascination towards the Orient and its Islamic religion In addition to analyses of musical works Al Taei draws on travel accounts paintings biographies and political events to engage with important issues such as gender race and religious differences that may have contributed to the variously complex images of the Orient in Western music The study extends the range of Orientalism to cover eighteenth century Austria nineteenth century Russia and twentieth century America The book challenges those scholars who do not see Orientalism as problematic and tend to ignore the role of musical representations in shaping the image of the Other within a wider interdisciplinary study of knowledge and power **The Arab Mind** J. Laffin, 1978

which Muslims abuse women and children and the roots of Muslim rage and why all of that plays into the development of future terrorism Other topics addressed in this reader friendly analysis include history s first Islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror The central idea throughout the book is that a person s attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person s own terrifying experiences in infancy and childhood Such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as Falk shows in fairy tales and myths about terrifying witches and female monsters Further terror may be experienced in the relationship with the father and also in various other traumatic ways It is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror Falk argues Thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism *Understanding Arabs, 6th Edition* Margaret K.
