Reconstruction and Regional Diplomacy in the Persian Gulf H. Amirahmadi,N. Entessar,2023-05-26 First Published in 1992 Reconstruction and Regional Diplomacy in the Persian Gulf goes beyond a description of the recent events by analysing the social political and economic patterns of interaction between the Gulf states The argument is strengthened by a consideration of the role of the superpowers in the region s political discourse and of religion as a force for a change Not only do the authors provide an easily accessible basis for explaining the current problems in the region but they also offer their own sometimes provocative policy prescriptions This book is an important read for scholars and researchers of Middle East politics and Middle East history
