Boiler Control Systems Engineering G. F. Gilman, Jerry Gilman, 2005 This book is for anyone who works with boilers as a utilities manager power plant manager control systems engineer maintenance technician or operator The information deals primarily with water tube boilers with Induced Draft ID and Forced Draft FD fans or boilers with only a FD fan However it can apply to any steam generator requiring the firing of fuel The book addresses issues to be considered when defining measurement transmitters and specification for transmitters Final control elements are reviewed as to characteristics and sizing Engineering details on control systems and the setup of the various control functions are covered with specific examples of boiler control including configuration and tuning The book also contains some of the primary requirements for a Burner Management System

Boiler Control Systems Engineering Jerry F. Gilman, 2010-07-27 Boiler Control Systems Engineering is designed for anyone working with boilers including utility managers power plant managers control systems engineers maintenance technicians and operators It primarily focuses on water tube boilers with induced draft ID and forced draft FD fans as well as those with only FD fans The content can also be applied to any fuel fired steam generator Although other books on boiler control exist they do not cover the detailed engineering aspects of control systems and the setup of various control functions This book provides specific examples of boiler control including configuration and tuning valve sizing and transmitter specifications This expanded and updated Second Edition features drum level compensation equations additional piping and instrumentation diagrams PIDs and examples of permissive start up and tripping logic for gas oil and coal fired boilers It also covers different control schemes for furnace draft management NFPA 85 Code 2007 control system requirements are included along with illustrated examples of coal fired boilers and information on the latest ISA 77 standards
