Computer Decisions ,1983 Planning and Designing the Data Base Environment Thomas A. Turk,1985 To satisfy increasing requirements for data data bases must be developed to satisfy information requirements as well as system requirements Data base design needs to accommodate data requirements as perceived by end users as opposed to limited use by any particular system The methods and procedures to build these increasingly flexible data bases are described in this book These procedures work but they require user friendly software to provide access to the data The process of implementing data planning is by nature a long term endeavor It requires a cultural change in the way the company builds computer based systems which in turn requires advanced planning sound management and administrative control and user friendly software Computer Applications in the Automation of Shipyard Operation and Ship Design III Chengi Kuo,Kenneth J.
