Home Schooling Frederick M. Lawrence, 2007 From left to right on the political spectrum there is at least one note of agreement the nation s school system has not delivered universal quality education Accordingly debate has raged over how to rectify this situation Should the government increase funding encourage privatisation some of both Another option though has emerged and is seemingly gaining popularity home schooling Citing both substandard education and displeasure with school environments and curricula many parents have decided to teach their own children Supporters say it is well within their rights to raise their children as they see fit and that at home learning is superior to the public system Detractors claim that home schooled children are deprived of social interaction and the broad based education provided by the system Neither side wants to cede ground making the issue of home schooling an integral part of a wider national debate on education In this book the specific topic of home schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to his important resource is then provided via author title and subject indexes

Falling in Love with America Again Jim DeMint,2014-03-04 Serving within the supposed pinnacles of power as a respected and influential U S Senator from South Carolina Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever bigger government is the solution to the nation s problems In his new role as president and CEO of The Heritage Foundation Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country s course of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations He realized that he and all of us as fellow citizens must fall in love with America again In this book DeMint illustrates why Americans must rediscover the power ingenuity and creativity of our little platoons He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way recounting example after example of how they re working together locally in what he calls the little platoons the families churches communities and voluntary organizations succeeding on the model that smaller is better They are the hands on citizens who make America the exceptional caring and can do country it has always been DeMint illustrates why each of us regardless of political party age race religion or ethnicity must rediscover the power we represent The country s future is at risk not just because of

constant pressure from the Bigs big government big banks big labor big Wall Street cronies etc but because so many of us fear it s too late to solve problems so huge and seemingly intractable Jim DeMint is here to reassure us that this is not true In riveting yet plainspoken style he tells real life success stories and educates us via logical historical and fact based explanations of the issues education taxation regulation poverty labor health care environmentalism Federalism and more He affirms the compelling truth that conservative ideas are really American ideas and they must guide us as we turn our institutions upside down taking them from the top down centrally controlled bureaucracies they ve become back to the bottom up democratic framework the Constitution intended Through this heartfelt fascinating and inspiring look inside the America of both yesterday and today and the everyday citizens who are working tirelessly and selflessly to insure its future fulfills the promise of its beginnings Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together **FALLING IN LOVE WITH AMERICA AGAIN** *Called To Defend* Valerie Thur (Locklair),2018-03-13 Why do you believe what you believe Aren t you arrogant for thinking that you re right and everyone else is wrong Isn t Christianity just a bunch of mythology These questions won t wait until high school They won t wait until college and they definitely won t wait until you decide you re ready to answer them The world into which you were born is a world at war The Enemy won t wait until you re ready before he attacks but thankfully neither did your Savior The battle for your soul is complete and now the Spirit calls you to be a vessel through which He touches a bleeding world *Called to Defend* provides middle school students with an interdisciplinary introduction to defending the faith Using subjects of mathematics computer science history and creative writing students will be taught to defend the faith courageously humbly and respectfully Is it possible to be unapologetically Lutheran and a staunch apologist even at a young age In Christ the answer is a resounding yes as the Holy Spirit calls sanctifies and enlightens us to believe confess and defend the faith to a world at war
