RD Boyd

Desires Chains:

On Desire William Braxton Irvine, 2006 Irvine looks at what modern science can tell about desire what happens in the brain when one desires something and how animals evolved particular desires He suggests that people who can convince themselves to want what they already have dramatically enhance their happiness **On Desire** William B. Irvine, 2005-11-01 A married person falls deeply in love with someone else A man of average income feels he cannot be truly happy unless he owns an expensive luxury car A dieter has an irresistible craving for ice cream Desires often come to us unbidden and unwanted and they can have a dramatic impact sometimes changing the course of our lives In On Desire William B Irvine takes us on a wide ranging tour of our impulses wants and needs showing us where these feelings come from and how we can try to rein them in Spicing his account with engaging observations by writers like Seneca Tolstoy and Freud Irvine considers the teachings of Buddhists Hindus the Amish Shakers and Catholic saints as well as those of ancient Greek and Roman and modern European philosophers Irvine also looks at what modern science can tell us about desire such as what happens in the brain when we desire something and how animals evolved particular desires and he advances a new theory about how desire itself evolved Irvine also suggests that at the same time that we gained the ability to desire we were programmed to find some things more desirable than others Irvine concludes that the best way to attain lasting happiness is not to change the world around us or our place in it but to change ourselves If we can convince ourselves to want what we already have we can dramatically enhance our happiness Brimming with wisdom and practical advice On Desire offers a thoughtful approach to controlling unwanted passions and attaining a more meaningful life **Practical Tarot Guide: Guidance for Money, Love, Career and More** Nadia Cardoso, 2024-06-24 Unlock the mysteries of tarot and embark on a transformative journey of self discovery guidance and spiritual growth with Practical Tarot Guide Guidance for Money Love Career and More This comprehensive and accessible guide is designed for both beginners and seasoned readers offering invaluable insights into the tarot and its practical applications in all areas of life In this book you will Explore Tarot Card Meanings Delve into the rich symbolism and profound meanings of each tarot card Both upright and reversed card interpretations are provided covering a wide range of life situations including general readings love and relationships career and work money and finances health and spiritual development You will also find positive affirmations for every card to boost your confidence and enhance your readings Understand Tarot Symbolism and Imagery Each card comes with detailed visual descriptions symbolic breakdowns and practical insights Learn how to decode the symbols on the cards to gain deeper clarity and insight into your personal journey Practical Guidance for Tarot Use Whether you are new to tarot or looking to refine your practice this book provides practical advice on preparing and consecrating your deck establishing a sacred space and integrating tarot into your daily life Learn how to approach your readings with intention and clarity and use meditation and journaling to enhance your connection with the cards Explore Tarot Spreads for All Aspects of Life Master a wide variety of

Depth-Psychological Understanding Philip F. D. Rubovits-Seitz,2013-05-13 Although clinical interpretation originated with Freud the latter s positivist preference for purely observational methods made him ambivalent toward interpretive methods According to Rubovits Seitz the legacy of Freud s positivism still pervades clinical thinking and interferes with progress in investigating and improving interpretive methods He reviews the paradigm shift in general science from positivism to postpositivism by way of demonstrating the compatibility of interpretive inquiry with a postpositivist approach Post Freudian models of clinical interpretation are evaluated and clinical methods of interpretation are compared with interpretive approaches in nonclinical fields A detailed discussion of the neglected problem of justifying interpretations incorporates evaluations of specific justifying procedures and a case report illustrating applications of such methods The work concludes with a consideration of common but avoidable errors in clinical interpretation along with remedial strategies for dealing with them Following *Depth Psychological Understanding* clinicians may no longer take for granted the interpretive process and the accuracy of their own interpretations Rubovits Seitz s scholarly survey marks a major advance in comprehending the methodology of clinical interpretation and in setting forth both the problems and promise of interpretive methods

Political Compassion Mohanad Hadid, 2015-12-01 Social problems ranging from poverty homelessness racism crimes involving hate and violence to fear stress depression drug abuse and suicide to international conflicts that lead to wars of annihilation do not originate with the individual but rather are caused by the values of the political system that a culture imposes on the lives of the individuals it governs A society's rule of law is derived from the conscious and unconscious moral principles that the governing body and its constitution ascribe to If we continue on the path we're on now these social problems will become much more complex and intractable Current world population is approximately 6.5 billion and if it increases at the rate of 1 percent per year it will reach approximately 100 billion people three hundred years from now and the magnitude of suffering will increase exponentially This book proposes that all social ills are the consequences of political oppression caused by societal political structures that produce human relationships of aggressors and victims and that political oppression and its aggressive nature can be attributed to and results from the will to power ego and hate www.PoliticalCompassion.com PoliticalCompassion@gmail.com [facebook.com/politicalcompassion](https://www.facebook.com/politicalcompassion)
