Black Studies Reader:

The Black Studies Reader Jacqueline Bobo, Cynthia Hudley, Claudine Michel, 2004-05-15 First published in 2004 Routledge is an imprint of Taylor Francis an informa company [The African American Studies Reader](#) Nathaniel Norment, 2001 African American Studies is a unique field of scholarly inquiry and critical interpretation whose intellectual foundation and development have significantly influenced other disciplines in the academy The African American Studies Reader is the largest and most comprehensive anthology yet undertaken in the field A variety of perspectives are used to present the development of the discipline of African American Studies This volume s sixty one articles are organized into eight sections I The Discipline Definition and Perspectives II African American Women s Studies III Historical Perspectives IV Philosophical Perspectives V Theoretical Foundation VI Political Perspectives VII Critical Issues and Perspectives and VIII Curriculum Development and Program Models This comprehensive anthology includes key selections from many scholars who have made substantial contributions to the development of the discipline They argue many different perspectives and topics relevant to the study of African American Studies as an intellectual social and political focus in of higher education they provide discussions of the intellectual and academic roots of the field they describe the conditions that made its emergence possible they present its theoretical research ideological and philosophical paradigms and they examine the past present and future challenges of African American Studies The African American Studies Reader is an invaluable complement to basic books in the discipline and can be used as an introductory text for graduate and undergraduate courses in the field It provides an essential guide to enable students to understand how the field evolved the range of perspectives it encompasses and the challenge and future directions of African American Studies This outstanding collection of various perspectives in African American Studies will be of interest to individuals new to the field as well as those already involved in research teaching and other aspects of African American Studies [Critical Black Studies Reader](#) Rochelle Brock, Dara Nix-Stevenson, Paul Chamness Miller, 2017 The Critical Black Studies Reader is a ground breaking volume whose aim is to criticize and envision Black Studies through a critical lens The book not only stretches the boundaries of knowledge and understanding of issues critical to the Black experience it creates a theoretical grounding that is intersectional in its approach Our notion of Black Studies is neither singularly grounded in African American Studies nor on traditional notions of the Black experience Though situated work in this field has historically grappled with the question of where are we in Black Studies this volume offers the reader a type of criticalization that has not occurred to this point While the volume includes seminal works by authors in the field as a critical endeavor the editors have also included pieces that address the political issues that intersect with among others power race class gender sexuality religion place and economics **The Black Studies Reader** , 2004 **The Black Studies Reader** Jacqueline Bobo, Cynthia Hudley, Claudine Michel, 2004-05-15 Black studies emerged from the tumultuous social and civil rights movements of the 1960s and empowered African Americans to

look at themselves in new ways and pass on a dignified version of Black history. However, it also enriched traditional disciplines in profound and significant ways. Proponents of Black and ethnic studies confronted the false notion that scholarly investigations were objective and unbiased explorations of the range of human knowledge, history, creativity, artistry, and scientific discovery. As they protested against hegemonic notions like universal psychology and re-evaluated canonical texts in literature, a new model of academic inquiry evolved, one committed to serving a range of populations that critiqued traditional politics, culture, and social affairs and worked with activist energy for the transformation of the existing social order. With an all-star cast of contributors, *The Black Studies Reader* takes on the history and future of this multi-faceted academic field. Topics include Black feminism, cultural politics, Black activism, lesbian and gay issues, African American literature and film, education, and religion. This authoritative collection takes a critical look at the current state of Black studies and speculates on where it may go from here.

Introduction to African American Studies Stephen Balkaran, 2018-12-31

Introduction to African American Studies: A Reader chronicles the experience of African Americans in the United States from their first arrival in 1619 to present day. The reader demonstrates how African Americans and their experiences have shaped America's historical, political, economic, and cultural history, as well as how the Black experience continues to influence American life. In Part I, students read about the continued significance of race in America and receive a primer on African American studies. Part II examines the arrival of Africans to America, the Atlantic Slave Trade, slavery, and states rights in the early republic and the issue of democracy in Jeffersonian America. Part III contains readings about Jim Crow, the roots of *Plessy vs. Ferguson* and the Niagara Movement. In Part IV, students learn about the impact of African American artists on literature, arts, and culture from 1927-1940. Part V includes readings on the Civil Rights Movement. The final part speaks to post-racial America in the age of Barack Obama. Gathering thought-provoking and critical literature, *Introduction to African American Studies* is an ideal resource for foundational courses within the discipline. Stephen Balkaran is an instructor of African American studies at Central Connecticut State University, where he initiated, developed, and coordinated a Civil Rights Project in 2006. He previously served as an instructor of political science at Quinnipiac University, the University of Connecticut, TRI-Campus Post University, and Capital Community College. Before launching his academic career, Mr. Balkaran worked for the African National Congress, Nelson Mandela's ruling party in South Africa, in partnership with the University of Connecticut. His educational background spans from the Presentation College in Trinidad to the University of Connecticut and Quinnipiac University School of Law, including a fellowship at Yale University.
