Debating Diversity:

Debating Diversity Jan Blommaert, Jef Verschueren, 2002-03-11 Immigration racism and nationalism have become hotly debated issues in the Western world This highly original and controversial work focuses on the language used by the vast majority who regard themselves as being open to a multi cultural society Using Belgium as a case study and drawing parallels with the UK US Europe and the former Yugoslavia the authors analyse this language and reveal a remarkable consistency between these liberal voices such as in news reporting and the language used by radical racist and nationalist groups

Debating Diversity Ronald T. Takaki, 2002 In the nineteenth century Herman Melville wrote America was settled by peoples of all nations You cannot spill a drop of American blood without spilling the blood of the whole world We are not a narrow tribe At the beginning of the twenty first century America is more ethnically diverse than ever before Will we fear this expanding diversity as the disuniting of America or will we embrace a more inclusive re definition of our national identity As the nation s preeminent scholar of multicultural studies Ronald Takaki invites us to address this question by debating diversity The overarching theme of his new anthology is the clash of perspectives over the master narrative of American history the powerful but mistaken story that this country was settled by European immigrants and that Americans are white The collection opens with the lively intellectual exchange between Nathan Glazer and Ronald Takaki on ethnicity versus race it then turns to the contrasting interpretations of the frontier by Frederick Jackson Turner and Takaki Other debates include Samuel P Huntington and Elizabeth Martinez on the diversity of civilizations Irving Kristol and William Julius Wilson on inner city blacks Robert J Samuelson and Gregory Defreitas on Mexican immigration Governor Pete Wilson and Chancellor Chang lin Tien on affirmative action and James Q Wilson and Elliott Currie on crime and punishment The anthology closes with a debate between Arthur Schlesinger Jr and Takaki on whether we as Americans should pursue a vision of our society as a melting pot or as a multicultural democracy Embedded in all of the essays is the question Originating from different shores can we become one people of the United States of America An ideal text for diversity courses in Ethnic Studies Political Science American Studies History Sociology Anthropology and Education **Debating Diversity** will stir students to think critically about who we have been and who we are as Americans

The Great Diversity Debate Kent Koppelman, 2011-06-05 Based on research from multiple disciplines this accessible book describes the presence and growth of diversity in the United States from its earliest years To The present Koppelman investigates the ways in which diversity is actually experienced and debated across critical sectors of social experience including immigration affirmative action education and national identity among others

Debating Multiculturalism Peter Balint, Patti Tamara Lenard, 2022 Multiculturalism has become a political touchstone in many countries around the world While many of those on the right oppose it and many of those on the left embrace it things are not this simple For those who defend them multicultural policies are generally seen as key to the fair and successful integration of minorities many of whom are immigrants into diverse democratic societies For those who

oppose multiculturalism who have become part of the so called backlash against multiculturalism they are charged with generating segregation rather than inclusion undermining national cultures reinforcing difference and privileging minority groups Around the world we see failing attempts at migrant integration persistent religious intolerance and racial and ethnic discrimination resurgent national minorities emboldened majorities permanent minorities continuing social isolation and increasing extremism including in the form of white nationalism But is multiculturalism the solution to these problems or does it just make them worse In this for and against book two prominent scholars of multiculturalism put forward different answers to this important question While Patti Tamara Lenard argues for minority rights as both the consequence of a right to culture and a way to redress the effects of nation building Peter Balint rejects minority rights altogether instead arguing for a re imagined liberal neutrality This theoretical disagreement plays out in real world policy disagreement Lenard for example argues strongly in favor of exemptions from general rules for minority cultures including the right of Sikhs to be exempt from helmet laws and for Jews and Muslims to be exempt from bans on male circumcision She also defends the right of minority cultures to have government supported separate spaces Balint on the other hand argues directly against these types of exemptions and government support He is opposed to any form of differentiation based on culture religion or ethnicity The book uses a wide range of real world examples to demonstrate their significant theoretical disagreement and to recommend very different policy proposals
