

Child World

Laura Straus

Child World:

The Child's World Jan Horwath, Janet Anne Basarab-Horwath, 2010 Rev ed of *The child s world assessing children in need* 2001

The Child's World of Illness Simon R. Wilkinson, 1988-06-30 How do I decide I am ill how do I decide that my children are ill How do I learn effective ways of conveying to others that I am ill This book discusses the languages of illness which we use to present our discomforts to others through an exploration of the child s world of illness It looks at how illness concepts are introduced to children how the causes of illness and germ rationales are incorporated into the socialisation of children and how a particular morality about health and illness is expressed Besides the analysis of the social context within which the children s views are developing the book presents the children s own views from three years old up to thirteen How we talk about illness can have as important consequences as the methods we use to cure it This book persuades the reader to look more closely at the language of illness allowing a reappraisal to medical practice school health programmes and class teaching health education and even the differences in health between the social classes In this way it forges a link between physical medicine and psychotherapy providing the developmental perspective of illness behaviour which has long been lacking
