Child Abuse Errors:

Errors and Mistakes in Child Protection Biesel, Kay, Masson, Judith, Tarja Pösö, Nigel Parton, 2021-09-15 Lessons from child protection errors and mistakes in 11 countries in Europe and North America are drawn together in a stimulating study from leading researchers in the field By comparing and contrasting impacts responses and responsibilities it deepens understanding of how child protection systems fail and points to ideas for risk reduction *Child Abuse Errors* Dennis Howitt, 1992 psychology and social issues *Child Maltreatment, An Issue of Pediatric Clinics* Howard Dubowitz, 2014-11-22 Pediatric primary care provides a unique opportunity to tackle child abuse and neglect In the United States in particular primary care is a well established system and most children have multiple visits especially in the first few years There is typically a very good relationship between parents and health professionals who are respected experts on children The interested pediatrician thus has a remarkable entrance into the workings of a family its shortcomings and its strengths With some knowledge and skill pediatricians can play a pivotal role even in a few strategic minutes We know however that some professionals feel very uncomfortable becoming involved in this unpleasant area and may be deterred from taking any action Understandable as this may be it can jeopardize a child's health and safety Hopefully this issue of Pediatric Clinics of North America will help make this work a bit easier albeit not easy With training and support pediatricians can equip themselves to be competent and more comfortable addressing child maltreatment Aside from the possible forensic implications the heart of this work is primarily about helping families take adequate or good care of their children Indeed helping address child abuse and neglect also helps promote children's health development and safety and it is central to the rich mandate of Pediatrics
