

A Parent Guide to the Accelerated Reader Program

What is the Accelerated Reader Program?

Accelerated Reader is a computer program that allows you to help monitor your child's progress in reading books at his or her appropriate reading level.

1. Read the Book

After your child has selected her book, she should read independently at home and do a short quiz at school. This will help her learn to understand and enjoy the book.

2. Track the Progress

The program will track the books that your child reads, along with their quiz scores and test points.

The information is then used by teachers to monitor children's progress and to offer additional support if and when needed.

The idea of the program is to help children to develop their reading skills at their own pace.

Benefits of the Accelerated Reader Program?

Encourage children to read regularly, making reading an exciting and enjoyable activity.

Help to read with the parent and with the teacher's records and to encourage a school.

Monitor an individual's progress by helping them build confidence in themselves.

Monitor the progress of the program and points.

How can I help my child at home?

Read at least 20 minutes for reading to help improve reading skills. The more children read, the better they will get at it.

Read all books your child can read. The more books they read, the better they will get at reading. You can also communicate with the teacher.

Read together and let your child explain the book to you. This will help them understand the content.

Ask your child to explain the book to you. This will help them understand the content. You can also communicate with the teacher.

Encourage your child to read for fun and to read to you. This will help them understand the content.

Monitor the progress of the program and points.

Concerns and Standings

What should I do if my child asks why books to get more points?

Reading books that are not within the reading level may seem appealing to your child as they will be able to read the books quickly and more easily.

The more books that I read, the more the computer will give me in the program. However, it is important to read books that are within the reading level to help your child to develop their reading skills and to read more books.

Why is my child reading so slowly?

The program will track the books that your child reads, along with their quiz scores and test points.
