Challenges To Local Government:

Challenges to Local Government Desmond S King, Jon Pierre, 1990 This volume provides a timely discussion of how local governments have undertaken public policies during the last decade Concentrating on Britain and the United States with chapters also on the Scandinavian countries and France the contributors document explain and analyze the implications of these policies for local autonomy and local government focusing especially upon local economic initiatives Both the empirical and theoretical implications of these local government policies are discussed drawing on recent research on local autonomy regulationist theory and flexible specialization In each case the challenge posed to the resources and capacities of local governments in advanced industrial democracies is emphasized The topics discussed include such policies as privatization industrial policy economic initiatives public private partnerships municipal liberalization business urban initiatives and local radical politics Challenges to Local Government will be of interest to scholars and students in political science urban studies sociology and geography An impressive and stimulating range of international material likely to influence thinking and teaching on local government for several years to come Local Government Studies Particularly welcome is the comparative focus of several of the chapters and the attempt to apply the American political economy approach to British local government That the collection raises more questions than answers is not a fatal defect in a newly developing field It is a useful if somewhat tentative contribution to the study of comparative urban politics British Politics Group Newsletter This book is the product of an ECPR Work Group would that all such groups produced outputs of this quality Political Studies of interest to teachers and students of local administration as well as to political scientists and economists International Review of Administrative Sciences This is a well structured informative and interesting book Environment and Planning C Government and Policy Wicked Problems Eric M. Reese, Maureen M. Berner, 2014 Local government leaders face a variety of problems in doing the work of local government and must use different approaches and resources to act in the best interest of their communities Some issues are difficult to solve and their root causes are often obscure and can remain untreated These persistent challenges are wicked problems and they can threaten the vitality of communities Local governments are well positioned to play a leading role in coordinating the efforts of businesses nonprofits citizen groups and other governments to help maximize resources and take meaningful actions to tackle these issues This guidebook aims to equip local government leaders with tools to develop new approaches for identifying understanding and addressing wicked problems See the Local Government Board Builders Series webpage for other books in the series and related School of Government publications <https://www.sog.unc.edu/resource/series/local-government-board-builders-series-0>

Challenges to Local Governance in the Pandemic Era John S. Moolakkattu, Jos Chathukulam, 2022-03-18 The COVID 19 pandemic has brought the question of local governance and inter governmental coordination to the centre of public administration There is a general feeling across the world that the local government space is critical in managing pandemics

This volume is a collection of articles on the experiences of the local governments in dealing with the COVID 19 pandemic. Although the focus is on South Asia especially India, it also provides perspectives on Europe, Africa, and Latin America. The book will appeal to researchers, policy makers, and practitioners who are interested in the interface between public health and local governance, particularly during emergencies. It also provides clues about the design of sustainable policy and governance, including the type of intergovernmental relations that should emerge in the post-COVID situation. **Essay** Alan C. Weinstein, 2015. Ongoing problems in the housing and credit markets caused by the subprime lending fiasco pose significant challenges to local and state government officials. Some of these challenges are immediate and obvious, for example, how to cope with a rapid increase in property foreclosures and a similarly rapid decrease in local property tax revenues. Associated challenges are emerging, however, such as constriction in the municipal bond market as a result of credit concerns among the companies insuring those bonds. Perhaps most seriously, scholars and commentators are suggesting that the current crisis combined with other trends will likely pose daunting new challenges to local government. This article evaluates these developments and their implications for local governments. **The Oxford Handbook of State and Local Government** Donald P. Haider-Markel, 2014-04-03. The Oxford Handbook of State and Local Government is an historic undertaking. It contains a wide range of essays that define the important questions in the field, evaluate where we are in answering them, and set the direction and terms of discourse for future work. The Handbook will have a substantial influence in defining the field for years to come. The chapters critically assess both the key works of state and local politics literature and the ways in which the sub-field has developed. It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions, behavior, and policy in the American context. Each chapter outlines an agenda for future research. *Problems of Local Government* George Montagu Harris, 2023-07-18. In *Problems of Local Government*, George Montagu Harris provides a fascinating and insightful analysis of the challenges facing the modern local government system. With a focus on the United Kingdom, this book offers valuable lessons and solutions for anyone interested in the field of public policy and administration. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. What Is Local Government For? Gerry Stoker, 2005. The Governance of Local Communities Reilly, 2017. The quality of local governance matters more than ever before. To many citizens, their local government is the most tangible form of government, and it is also the layer of government with which

they have most contact in their everyday life The power of the local administration is that it represents ordinary citizens People eat drink work play and socialise with others in towns and cities To be fully effective local government management and service delivery capacity needs to be strong and resources need to be adequate Civil society and businesses are essential actors in ensuring local governments have the capacity to meet the needs of its citizens There are a host of challenges that confront local government in the 21st century delivering quality services lack of finance and local fiscal autonomy engaging citizens and communities in meaningful and authentic ways forming effective partnerships which incentivize local actors to find solutions to the many complex and intractable issues facing communities generating inclusive and sustainable development implementing strategies for disaster risk reduction managing transparent communications and rapidly evolving technologies and socio economic demographics The Governance of Local Communities Global Perspectives and Challenges is about the role that ideas institutions and actors play in structuring how people govern local communities and more specifically the types of adaptations necessary in local government roles and responsibilities structures and processes to effectively respond to a changing local government environment Global changes require that we rethink local governance A wide net of international experts on local governance was assembled for this volume to stimulate frank conversations around the many contemporary challenges facing local government
