**Contemporary Marathi Literature** V. R. Kanadey,1991 Women's Livelihood Rights Sumi Krishna,2007-09-10 This interdisciplinary book looks at women s natural resource based livelihoods in the wider context of development viewed through the lens of citizenship rights Unravelling the patriarchal social fabric and policy structures in India it argues that the concept of citizenship needs to be extended to include recognition of ways of life and livelihood so that women take their

legitimate space as productive human beings entitled to dignity as a political right and not merely to protection and welfare. The editor weaves together a historical perspective on varied dimensions of livelihood development and citizenship. Drawing upon rich field based researches in 13 states across India the authors deal with complex and inter related themes: the need to recognise women's right to resources and their livelihood and employment strategies; the challenges of democratic governance and of restructuring institutional systems to make them responsive; and the role of women's collective agency in development. Reflecting upon and critically analysing context specific issues in several less studied locations the book shows that there is much to be learnt from empathetic interaction with the collective struggles of poor women and from action and dialogue on the ground. Further it suggests that feminist politics has to network strategically with other struggles to counter the resistance of traditional and contemporary patriarchal structures and to work towards recasting citizenship for a gender just development that ensures women's livelihood rights.
