Alpha 96 Basic Education And Work:

Alpha 96 Jean-Paul Hautecoeur,1996 Alpha 96 Jean-Paul Hautecoeur,1996 This is the fourth in UIE s Alpha Series dealing with literacy in industrialized countries It addresses such critical issues as the employment crisis resistance to loss of culture and identity employment dislocation and disqualification Methods for responding to these situations as well as forms of basic education are examined *Unesco List of Documents and Publications* Unesco,1994 **Handbook of Adult and Continuing Education** Arthur L. Wilson, Elisabeth Hayes,2009-04-27 Sponsored by the American Association of Adult Continuing Education This monumental work is a testimony to the science of adult education and the skills of Wilson and Hayes It is a veritable feast for nourishing our understanding of the current field of adult education The editors and their well chosen colleagues consistently question how we know and upon what grounds we act They invite us to consider not only how we can design effective adult education but also why we practice in a particular socio economic context Jane Vella author of *Taking Learning to Task* and *Learning to Listen* *Learning to Teach* This new handbook captures the exciting intellectual and professional development of our field in the last decade It is an indispensable resource for faculty students and professionals Jack Mezirow emeritus professor Adult and Continuing Education Teachers College Columbia University For nearly seventy years the handbooks of adult and continuing education have been definitive references on the best practices programs and institutions in the field In this new edition over sixty leading authorities share their diverse perspectives in a single volume exploring a wealth of topics including learning from experience adult learning for self development race and culture in adult learning technology and distance learning learning in the workplace adult education for community action and development and much more Much more than a catalogue of theory and historical facts this handbook strongly reflects the values of adult educators and instructors who are dedicated to promoting social and educational opportunity for learners and to sustaining fair and ethical practices **The Poverty of Life-Affirming Work** Mechthild Hart,2001-12-30 While society may applaud middle and upper class women who decide to stay home to raise their children there exists a decided abhorrence for single mothers welfare queens who collect public funds but do not work Here Hart challenges traditional notions of welfare mothers by providing first hand accounts of poor urban mothers and revealing the life affirming and moral aspects of their motherwork a form of subsistence work involving many tasks that incorporate the physical psychological emotional and spiritual dimensions of life Though the mothering work these women do is vilified in public discourse as unnecessary and unwanted the author contends that the ethical and epistemological dimensions of life affirming work a key component of motherwork not only structure social political activism but also educational efforts that are oriented towards radical change Concrete experiences of motherwork policy analyses regarding welfare reform efforts oriented towards educational and epistemological border crossings and collective struggles for social change are examined here in a larger theoretical political economic framework Pulling together the many strands of different theoretical fields addressing issues related to critical

transformative pedagogy community activism and forms of unpaid work this unique work calls for the unlearning of ways of thinking and feeling which uphold prejudices and life threatening social political hierarchies While the public may sneer at women who choose to accept welfare in order to stay home to raise their children these mothers must continue to perform this invisible work in order that their children may break the cycle of poverty in which they are entrenched The author examines ways in which these mothers organize and carry out educational efforts and political work in the context of extreme poverty and against the harsh criticisms of an unforgiving public Ultimately Hart hopes to convince the public of the inherent importance of motherwork and break down the prejudices that have worked against the urban poor and single mothers

Literacy in the Lives of Working-Class Adults in Australia Stephen Black,2023-12-14 Explores the politics of literacy and how dominant constructions of literacy can be used to oppress working class people Organizational Discourse Renata Fox,John Fox,2004-10-30 This work supplies a concrete definition of Corporate Public Discourse an idea that has always lacked true character It explores how leading corporations use their own special language to define their cultures The authors take this language once considered a mere embellishment of speech and use it to explore the inner workings of world renowned organizations This book bridges the gap between organizational studies and linguistics by analyzing the communications of today s top companies The book describes a weekly Saturday morning meeting at Wal Mart evaluates IBM s commitment to success and looks into the social role of high caliber CEOs Broken into seven parts including management media and analysis the study efficiently frames the importance of corporate communication Beyond Economic Interests Keiko Yasukawa,Stephen Black,2016-02-10 Over the last two decades an increasingly economic discourse has dominated discussions about adult literacy and numeracy This book provides critiques of and alternative narratives to the dominant discourse Authors provide tools and methodologies of critique including ways of seeing how policies in the countries of focus come to be captured almost completely by the interests of business and industry as well as how to critically interpret the data that policy makers use to justify their priorities But adult literacy and numeracy practitioners and learners find spaces and places to pursue learning that matters for the lived experiences of adults and their communities Beyond Economic Interests presents the struggles and achievements of practitioners and learners that lead the readers of the book to critically appreciate that a counter narrative to the purely economic discourse of adult literacy and numeracy is much needed and possible *Catalogue* Unesco Publishing,2004 Alpha ,1997 **International Labour Documentation** International Labour Organization.
