A Companion to the History of American Broadcasting Aniko Bodroghkozy, 2018-07-23 Presented in a single volume this engaging review reflects on the scholarship and the historical development of American broadcasting. *A Companion to the History of American Broadcasting* comprehensively evaluates the vibrant history of American radio and television and reveals broadcasting's influence on American history in the twentieth and twenty-first centuries. With contributions from leading scholars on the topic, this wide-ranging anthology explores the impact of broadcasting on American culture, politics, and society from an historical perspective as well as the effect on our economic and social structures. The text's original and accessibly written essays offer explorations on a wealth of topics including the production of broadcast media, the evolution of various television and radio genres, the development of the broadcast ratings system, the rise of Spanish language broadcasting in the United States, broadcast activism, African Americans and broadcasting, 1950s television, and much more. This essential resource presents a scholarly overview of the history of radio and television broadcasting and its influence on contemporary American history. Contains original essays from leading academics in the field. Examines the role of radio in the television era. Discusses the evolution of regulations in radio and television. Offers insight into the cultural influence of radio and television. Analyzes canonical texts that helped shape the field. Written for students and scholars of media studies and twentieth-century history. *A Companion to the History of American Broadcasting* is an essential and field-defining guide to the history and historiography of American broadcasting and its many cultural, societal, and political impacts. **Proceedings of the Twenty-first Annual Conference of the Cognitive Science Society** Martin Hahn, Scott C. Stoness, 2020-12-22 This book presents the complete collection of peer-reviewed presentations at the 1999 Cognitive Science Society meeting, including papers, poster abstracts, and descriptions of conference symposia. For students and researchers in all areas of cognitive science. *The Cultural Politics of Colorblind TV Casting* Kristen J. Warner, 2015-06-05 This book fills a significant gap in the critical conversation on race in media by extending interrogations of racial colorblindness in American television to the industrial practices that shape what we see on screen. Specifically, it frames the practice of colorblind casting as a potent lens for examining the interdependence of 21st-century post-racial politics and popular culture. Applying a production as culture approach to a series of casting case studies from American primetime dramatic television, including ABC's *Grey's Anatomy* and The CW's *The Vampire Diaries*, Kristen Warner complicates our understanding of the cultural processes that inform casting and expounds the aesthetic and pragmatic industrial viewpoints that perpetuate limiting or downright exclusionary hiring norms. She also examines the material effects of actors of color who knowingly participate in this system and justify their limited roles as a consequence of employment, and finally speculates on what alternatives, if any, are available to correct these practices. Warner's insights are a valuable addition to scholarship in media industry studies, critical race theory, ethnic studies, and audience reception, and will also appeal to those with a general interest in race in popular culture.
