Atrium Buildings Richard Saxon,1987 *Atrium Buildings* Richard Saxon,1983 **Design Principles of Atrium Buildings for the Tropics** Mohd. Hamdan Ahmad,Mohamad Tajuddin Haji Mohamad Rasdi,2000 **Atrium Buildings** Richard Saxon,1986 *Design Approaches for Smoke Control in Atrium Buildings* G. O. Hansell,H. P. Morgan,1994-01-01 This report is intended to assist designers of smoke ventilation systems in atrium buildings Most of the methods advocated are the outcome of research into smoke movement and control at the Fire Research Station FRS but also take into account experience gained and ideas developed whilst the authors and their colleagues have discussed many proposed schemes with interested parties The primary purpose of the Report is to summarise in a readily usable form the design advice available from FRS at the time of its preparation As such it does not attempt to cover installation detailed specification of hardware or aspects of fire safety engineering other than smoke control *Building Codes Illustrated* Francis D. K. Ching, Frank Ching, Steven R. Winkel,2007 A guide to understanding the International Building Code that uses detailed diagrams to explain the criteria for code development and the reasons for code provisions **Architectural, Construction, Environmental and Digital Technologies for Future Cities** Natalia Potienko,Elena Ahmedova,Antonina Karlina,Vladimir Faerman,2022-04-27 This book offers an overview of Russian and international experience in developing the concept of future cities and its practical implementation The concept of future cities is associated with several important trends The first trend is the sustainable development of the urban environment and the implementation of eco friendly technologies and materials in civil construction industrial and power plants The harmonious coexistence of the citizens with all forms of nature in the urban habitat becomes a great value The second trend is the individualization of the aesthetical and architectural image of the future cities The city s unique flavor based on the blending of the historical legacy and architectural traditions is now as important as the utility of the environment The third trend is the digitalization of the urban environment with the use of state of the art sensors information and communication technologies and data science The efficiency of operations and services achieved by the extensive use of complex IoT networks becomes a value as well The last trend is the adaptation of the urban and social environment for individual demands of a community and a person Individual comfort and safety are now more important than ever before By addressing these trends the volume discusses local and international plans practices and technologies aimed at the development and implementation of future cities *Daylight in Atrium Buildings* CRC Press,P. J. Littlefair,M. E. Aizlewood,1998 Daylight is an essential component of a visually attractive and energy efficient atrium building However the atrium itself needs enough light for circulation purposes and to sustain plant growth good control of electric lighting is vital for energy efficiency and areas surrounding the atrium can suffer from poor penetration of natural light unless care is taken in design Solar shading also needs to be considered This paper explains the issues involved and gives guidance It will be of interest to architects engineers and their clients **Sun, Wind, and Light: Architectural**

Design Strategies Mark DeKay, G. Z. Brown, 2013-12-16 An updated guide to designing buildings that heat with the sun cool with the wind and light with the sky This fully updated Third Edition covers principles of designing buildings that use the sun for heating wind for cooling and daylight for natural lighting Using hundreds of illustrations this book offers practical strategies that give the designer the tools they need to make energy efficient buildings Hundreds of illustrations and practical strategies give the designer the tools they need to make energy efficient buildings Organized to quickly guide the designer in making buildings respond to the sun wind and light Architecture, City, Environment Koen Steemers, Simos Yannas, 2000 PLEA is a network of individuals sharing expertise in the arts sciences planning and design of the built environment It serves as an international interdisciplinary forum to promote discourse on environmental quality in architecture and planning This 17th PLEA international conference addresses sustainable design with respect to architecture city and environment at the turn of the millennium The central aim of the conference is to explore the interrelationships and integration of architecture city and environment The Proceedings will be of interest to all those involved in bioclimatic design and the application of natural and innovative techniques to architecture and planning The conference is organised by the Martin Centre for Architectural and Urban Studies University of Cambridge and the Cambridge Programme for Industry University of Cambridge
