Deleuze and the Schizoanalysis of Visual Art Ian Buchanan, Lorna Collins, 2014-07-31 The concept of schizoanalysis is Deleuze and Guattari s fusion of psychoanalytic inspired theories of the self the libido and desire with Marx inspired theories of the economy history and society Schizoanalysis holds that art s function is both political and aesthetic it changes perception If one cannot change perception then one cannot change anything politically This is why Deleuze and Guattari always insist that artists operate at the level of the real not the imaginary or the symbolic Ultimately they argue there is no necessary distinction to be made between aesthetics and politics They are simply two sides of the same coin both concerned with the formation and transformation of social and cultural norms Deleuze and the Schizoanalysis of Visual Art explores how every artist good or bad contributes to the structure and nature of society because their work either reinforces social norms or challenges them From this point of view we are all artists we all have the potential to exercise what might be called a aesthetico political function and change the world around us or conversely we can not only let the status quo endure but fight to preserve it as though it were freedom itself Edited by one of the world s leading scholars in Deleuze Studies and an accomplished artist curator and critic this impressive collection of writings by both academics and practicing artists is an exciting imaginative tool for a upper level students and academics researching and studying visual arts critical theory continental philosophy and media

absence of clutter Paul Stephens, 2020-03-24 An exploration of minimal writing texts generally shorter than a sentence as complex powerful literary and visual works In the 1960s and 70s minimal and conceptual artists stripped language down to its most basic components the word and the letter Barbara Kruger Jenny Holzer Carl Andre Lawrence Weiner and others built lucrative careers from text based art Meanwhile poets and writers created works of minimal writing visual texts generally shorter than a sentence One poem by Aram Saroyan reads in its entirety eyeeye In absence of clutter Paul Stephens offers the first comprehensive account of minimal writing arguing that it is equal in complexity and power to

better known more commercial text based art Minimal writing Stephens writes can be beguilingly simple on the surface but can also offer iterative reading experiences on multiple levels from the fleeting to the ponderous absence of clutter for example the entire text of a poem by Robert Grenier is both expressive and self descriptive Stephens first sets out a theoretical framework for reading and viewing minimal writing and then offers close readings of works of minimal writing by Saroyan Grenier Norman Pritchard Natalie Czech and others He reverse engineers recent works by Jen Bervin Craig Dworkin and Christian B k that draw on molecular biology and explores print on demand books by Holly Melgard code poetry by Nick Montfort Twitter based work by Allison Parrish and the use of Instagram by Hans Ulrich Obrist and Saroyan Text it seems is becoming ever more prevalent in visual art meanwhile poems are getting shorter When reading has become scanning a screen and writing tapping out a text absence of clutter invites us to reflect on how we read see and pay attention
