**Frontier Computing** Jason C. Hung, Neil Y. Yen, Jia-Wei Chang, 2022-05-23 This book gathers the proceedings of the 11th International Conference on Frontier Computing held in Seoul on July 13-17, 2021 and provides comprehensive coverage of the latest advances and trends in information technology science and engineering. It addresses a number of broad themes including communication networks, business intelligence, and knowledge management. Web intelligence and related fields that inspire the development of information technology. The respective contributions cover a wide range of topics: database and data mining, networking and communications, Web and Internet of things, embedded systems, soft computing, social network analysis, security and privacy, optical communication, and ubiquitous/pervasive computing. Many of the papers outline promising future research directions, and the book benefits students, researchers, and professionals alike. Further, it offers a useful reference guide for newcomers to the field. *General Catalog* Iowa State University, 1908

**Interdisciplinary Perspectives on Virtual Place-Based Learning** Reneta D. Lansiquot, Sean P. MacDonald, 2019-12-12 This book explores how virtual place-based learning and research has been interpreted and incorporated into learning environments both within and across disciplinary perspectives. Contributing authors highlight the ways in which they have employed a variety of methodologies to engage students in the virtual exploration of place. In the process, they focus on the approaches they have used to bring the real world closer through virtual exploration. Chapters examine how the resources of the urban environment have been tapped to design student research projects within the context of an interdisciplinary course. In this way, authors highlight how virtual place-based learning has employed the tools of mapping and data visualization, information literacy, game design, digital storytelling, and the creation of non-fiction VR documentaries. This book makes a valuable contribution to the literature, offering a model of how the study of place can be employed in creative ways to enhance interdisciplinary learning.
