Bedside Matters

Sir Frederick Robert St. John

Bedside Matters:

An Officer and a Lady Cynthia Toman, 2008-05-20 During the Second World War more than 4 000 civilian nurses enlisted as Nursing Sisters a specially created all female officers rank of the Canadian Armed Forces They served in all three armed force branches and all the major theatres of war yet nursing as a form of war work has long been under explored An Officer and a Lady fills that gap Cynthia Toman analyzes how gender war and medical technology intersected to create a legitimate role for women in the masculine environment of the military and explores the incongruous expectations placed on military nurses as officers and ladies

Faculty of Nursing on the Move Geertje Boschma, 2005 Faculty of Nursing on the Move provides a historical analysis of the Faculty of Nursing at the University of Calgary in contrast and comparison to the broader evolution of academic nursing in Canada It addresses how the faculty has responded to important social trends and changes in health care policy and helps the reader to understand contemporary nursing issues Starting with the dramatic changes in health care policy after the Second World War it establishes the role of nursing education as pivotal to a growing health care industry The book then moves on to describe the challenge of developing an identity for an academic unit within the larger academic and health care structure This book will be of particular interest to anyone involved in women s studies as it represents a case study for broader women s issues within an academic environment

For Patients of Moderate Means David Paul Gagan, Rosemary Ruth Gagan, 2002 Between 1890 and 1910 scientific and technological innovation transformed the custodial Victorian charity hospital for the sick poor into the primary source of effective acute medical care for all members of society For the next half century hospitals coped with relentlessly escalating demands for accessibility by both medical indigents and a new clientele of patients able and willing to pay for hospitalization With limited statutory revenues and unpredictable voluntary support hospitals taxed paying patients through ever increasing user fees offering in return privacy comfort service and medical attendance in private and semi private wards that were more appealing to middle class patients than the stark and grudging service of the public wards

On All Frontiers Christina Bates, Dianne Dodd, Nicole Rousseau, 2005-04-30 Nursing has a long and varied history in Canada Since the founding of the first hospital by the Augustine nuns in 1637 nurses have contributed greatly to Canadians quality of life *On All Frontiers* is a comprehensive history of Canadian nursing Editors Christina Bates Dianne Dodd and Nicole Rousseau have brought together a vast body of research into one volume Authored by leading experts the chapters and vignettes form an overview of the history of Canadian nursing to date From the midwives of early Canada to urban public health nurses from remote outposts to the battlefields of Europe *On All Frontiers* documents the hardships challenges and achievements of Canadian nurses Richly illustrated with archival photographs it is an essential read for scholars of Canadian health care history Published in English

Bedside Matters Richard Alther, 2021-03-23 *Bedside Matters* the fifth novel by painter and writer Richard Alther enlivens its singular setting with an unexpected journey at life s end for one man Walter had mastered the

business world at an unaccounted cost to discover in old age and ill health a disease that would render his body useless Walter is a complicated man now captured in the gilded cage of his mansion watching the world his world go by without him Visitors with agendas appear to remind him of his life and responsibilities Walter s ex wife Polly a voluptuous handful as he would describe her Paula his chip off the old block all business daughter Gavin his attractive and irresponsible son with a dodgy track record and the irrepressible daydreams and memories that flood his consciousness with emotions long shunned While Walter reads the 13th century Persian poet Rumi s work his inner life takes on a new shape as his body continues to betray him and deteriorate He says a long reluctant goodbye while engaging a side to life that has been unexplored until now The natural world in the garden outside his window pleasures as he battles pain New people enter his world to invigorate his last days including his physical therapist Tressie a woman so enticing he counts the minutes between visits Succession becomes an obsession with Paula as she builds her empire and Gavin tries to start over again after another stint in rehab Walter watches them play the game of life as he becomes a mere observer from the solitude of his stately manor lost and found in his thoughts For the first time he seems to experience life as a poet would even as the inevitable end comes closer A cinematic non linear take and frank examination of the promise of life even at its end *Bedside Matters* concern us all at one time or another as we ask the ultimate question what matters most *Health Reformer* John Harvey Kellogg, James Thomas Case, 1892 *The Little Old Man of Batignolles and Other Stories* Émile Gaboriau, 1884 *Computers in Healthcare* ,1989

Reminiscences of a Retired Diplomat Sir Frederick Robert St. John, 1905 *New York State Journal of Medicine* ,1929 **The new cyclopædia of illustrative anecdote [by E.S.P.]** E S. P., 1880 **Revue Canadienne de Recherche en Sciences Infirmières** ,2002 *Texas State Journal of Medicine* ,1915 **Feminist Periodicals** ,1998 **Track of the Bear** William Bixby, 1965 Describes the eighty nine year career of the ice ship Bear which served the US Coast Guard from 1886 1926 on the Arctic Patrol was a rescue vessel in the Arctic and participated in Admiral Byrd s US Antarctic Service s exploring operations *Ontario History* ,2001 **LLT** ,2000 *American Nursing* Patricia D'Antonio, 2010-07-11 First Place History and Public Policy 2010 American Journal of Nursing Book of the Year Awards This new interpretation of the history of nursing in the United States captures the many ways women reframed the most traditional of all gender expectations that of caring for the sick to create new possibilities for themselves to renegotiate the terms of some of their life experiences and to reshape their own sense of worth and power For much of modern U S history nursing was informal often uncompensated and almost wholly the province of female family and community members This began to change at the end of the nineteenth century when the prospect of formal training opened for women doors that had been previously closed Nurses became respected professionals and becoming a formally trained nurse granted women a range of new social choices and opportunities that eventually translated into economic mobility and stability Patricia D Antonio looks closely at this history using a new analytic framework and a rich trove of archival sources and finds complex multiple meanings in the individual

choices of women who elected a nursing career New relationships and social and professional options empowered nurses in constructing consequential lives supporting their families and participating both in their communities and in the health care system Narrating the experiences of nurses D Antonio captures the possibilities power and problems inherent in the different ways women defined their work and lived their lives Scholars in the history of medicine nursing and public policy those interested in the intersections of identity work gender education and race and nurses will find this a provocative book
