**THE LIMERICK**

1700 examples, with notes, variants and index  
Edited by G. Legman

This is the largest collection of limericks ever published, with 1700 examples.

Of the 1700 printed here, here is a selection.

The limerick is the only fixed poetic form native to the English language. "Many Quakers Quak" was a limerick (remember?), but before the limerick the limerick was not a limerick.

The limerick is reported to have dated limericks into three ages: "limericks to be told when ladies are present, limericks to be told when ladies are absent and clergymen are present, and limericks to be told when ladies are absent and clergymen are absent."

As the limerick, in this collection will show, is sufficient unto itself to be read aloud.

Henry Bennett said, in the 1920's, that the best limericks were written in America. Until now, we might add, Bennett, by himself, has a limerick: "The young plumber of Leigh," #90 in the volume.

He wrote it in English, French, German and Latin. He wrote the young plumber in the young lady of Whitting who had the young plumber's name.
