Zion,1991 *Dada Surrealism* ,1974 **The Crystal Journey** Ivan McBeth,2005-05-01 The Crystal Journey is an autobiographical novel describing seven years of Ivan s life It all started when he attempted to walk through the Himalayas into Tibet and leave the world behind no such luck He was hurled back into life and given his first true warrior s task in service to the planet He was guided to a broken mountain where there had been a recent rockslide There he found seven hundred incredibly clear magical quartz crystals in a cliff face He became obsessed with one question why had these beautiful crystal beings entered his life He carried them to the Lake of the Moon a fairytale lake at an altitude of fifteen thousand feet which he had earlier discovered on his walk to Tibet He camped there for a month meditating and cleaning the crystals There he received guidance both for his spiritual journey through life and for what he needed to do with the crystals he had found Until this point in his life Ivan had floated directionless like flotsam on the tides of existence at the mercy of chance When the Crystal Beings entered his awareness they gathered the threads of his attention communicated the reason why they had appeared and informed him about what he should do about it You can imagine the joy he experienced when he realised that his faith had been rewarded and his Way had been revealed for the first time Having left his home far behind he had traveled through the Unknown learning the rules as he went He lived by his wits learning skills along the way following the whisperings of his heart Now after nearly ten years of journeying unknown pathways through strange lands his trust had been rewarded It felt as if he had been floating through the waters of eternity and he had finally found land This is an original autobiographical novel of mystery travel and adventure The magical and incredible part about it is that it s all true For some strange reason those things that are usually only dreamed of or read about in fairy stories seem to happen to Ivan in his everyday life He believes it is a magical agreement he made long ago with the forces of his destiny but where and when he cannot remember One moment he is talking with a friend the next he is surrendered to death the next he is battling for his life and sanity with a hoard of demons It certainly keeps him on his toes and his boundaries are constantly stretching into realms unimaginable The Crystal Journey is a magic carpet book whisking the reader away both to interesting places around the world and to the landscape of our innermost fantasies It connects us to the spirit of adventure which if journeyed with will make all of our dreams come true We all have two lives that exist simultaneously They are our physical lives and our

spiritual lives Whether we like it or not we exist in these two states all the time In the modern world we are taught to give all our attention to the former for it is described as the way to success fortune and fulfillment By giving the material life all of our attention the other simply ticks over malnourished underdeveloped sabotaging our hopes for a balanced fulfilled existence We shy away from living spiritual lives because we associate the word spiritual with loneliness insanity discipline unnatural sexuality harshness obsession and ridicule This is a very restrictive and biased view of the sacred It is not generally understood that the word Spiritual can also be described as love adventure following your heart trusting your intuition embracing joy walking one's talk and merging with the Beloved How often have you heard the expression Do you live by your heart or your head This simply means did you give your spirit or your physical awareness priority It is important that we give both our physical and spiritual sides equal attention as both need to be healed
