Identity achievement is the successful establishment of a coherent and integrated sense of self, characterized by a clear understanding of one's values, goals, beliefs, and sense of identity.

## OVERVIEW

Identity achievement refers to the stage of Erikson's psychosocial development, where individuals have successfully resolved the identity crisis and have established a firm sense of who they are. It involves a process of exploration and decision-making, where individuals actively seek out and make choices regarding their values, interests, career paths, and overall life direction.

## EXAMPLES

- **Career Choice:** A man has a deep respect for teachers. Eventually, he decides to commit to a career in education to inspire future generations.
