Bullies And Victims:

Bullying Sandra Harris, Garth F. Petrie, 2003 Within the past few years schools communities and parents throughout the world have begun to recognize that bullying is not something that can be ignored with dismissive comments or admonitions There is no doubt that school violence is a critical problem in America s schools and bullying is a maladaptive behavior with consequences Bullying can be reduced but first educators and parents must recognize the pervasive nature of the problem This easy to read book describes the problem of bullying at all school levels elementary middle and high Chapters include different types of bullying that occur and how they effect the bully the bullied and the bystander The authors report the results of many studies including personal research to discuss incidences of bullying at school and list of sources for preventing and intervening to reduce this type of misbehavior are included For K 12 educators professors of education and parents

Bullies and Victims in Schools Valerie E. Besag, 1989 Bullying is a covert problem buried in he subculture of a school But what kind of child becomes a bully or a victim and why What family and social context produce them How important are the factors of race and gender in the bullying cycle

Bullies, Victims, and Bystanders Lisa H. Rosen, Shannon R. Scott, Samuel Y. Kim, 2020-10-01 This book focuses beyond the bully victim dyad to highlight how bullying commonly unfolds within a complex system that involves many individuals interacting with one another As the vast majority of bullying episodes occur in front of a peer audience this book examines the ways in which bystanders can act to either fuel or deter bullying Each chapter highlights a particular participant role bully assistant reinforcer outsider defender and victim Attention is also devoted to the important influence parents and teachers have on the peer ecology and bullying dynamics By viewing bullying through the eyes of each individual role the authors provide an in depth exploration of bullying as a group process with special attention to implications for prevention and intervention This book refreshes and expands our understanding of bullying as a group process by highlighting classic research while integrating new findings with attention to changing technology and the modernization of our society It provides a unique resource that will appeal to teachers and educational psychologists in addition to researchers in the areas of psychology public health and education

Characteristics of Students Identified as Bullies, Victims, and Bully-victims Lisa A. Wilke, 2016 Using data from the Minnesota Student Survey of over 120 000 eighth ninth and eleventh grade students across the state this study examined the characteristics of students who identified themselves as engaging in bullying behavior bully only being the target of bullying victim only or both engaging in and being the target of bullying bully victims Scores for these three bully victim groups were compared to the general student population on fourteen characteristics perception of safety perceived fairness perception of care family communication family inclusiveness internalizing behavior externalizing behavior inattentiveness coping skills positive self evaluation positive feelings toward others parent abuse sexual abuse and family substance abuse All categories of bullies and victims reported adverse scores on these measures scoring on average about one half standard

deviation below the mean of all Minnesota students Bullies and victims were similar on eight of the fourteen measures Bully victims consistently reported lower scores compared to the bully only and victim only groups Gender differences were found with female students reporting more hardship on half of the investigated characteristics however gender did not interact with bully victim status These findings have important implications for understanding the psychological behavioral and physical space which both bullies and victims occupy

Bullying From Both Sides Walter B. Roberts, Jr.,2005-09-16 The ultimate guide to recognizing and reducing bullying behaviors in school Today s bullies use more than threats and acts of physical violence to intimidate and humiliate their victims so today s educators can t rely upon traditional disciplinary measures to tackle bullying in schools Get to the heart of the matter by offering realistic interventions grounded in the psychology behind the actions of both bullies and victims This new resource also provides an in depth look at Differences between bullying and teasing Profiles of students at risk for victimization Cyberbullying and female bullies Designing a bullying prevention program Consequences when school personnel fail to act appropriately

Bullies and Victims in Schools Valerie E. Besag,1989 Bullying is a covert problem buried in he subculture of a school But what kind of child becomes a bully or a victim and why What family and social context produce them How important are the factors of race and gender in the bullying cycle

Bully Busters Dawn A. Newman,Dawn Newman-Carlson,Arthur M. Horne,Christi L. Bartolomucci,2000 Offers middle school teachers classroom strategies for stopping and preventing bullying

Bullying in Adulthood Peter Randall,2002-09-11 Peter Randall s first book Adult Bullying was one of the first books to examine the various situations in which adult bullying occurs the forms it takes and how it can be identified and dealt with more efficiently particularly in workplace settings Since that title was published there has been more awareness of the extent of adult bullying In *Bullying in Adulthood* Assessing the Bullies and their Victims other aspects of the problem are examined such as research and clinical issues and in particular assessment of bullies and victims and the background factors to such behaviour This has become increasingly important as the problem begins to be appreciated and addressed within therapeutic social and legal arenas A number of strategies are suggested both for dealing with bullying and victim behaviour and for monitoring situations for example by employers to see if problems improve To assist in this process Peter Randall proposes a model of adult bullying which enables clinicians and human resources specialists to determine which factors are influential in individual cases This book will appeal to practitioners and researchers in clinical counselling psychology counsellors managers human resources staff and social workers
