Art Of Making Comics:

Making Comics Scott McCloud,2011-10-18 Scott McCloud tore down the wall between high and low culture in 1993 with *Understanding Comics* a massive comic book about comics linking the medium to such diverse fields as media theory movie criticism and web design In *Reinventing Comics* McCloud took this to the next level charting twelve different revolutions in how comics are generated read and perceived today Now in *Making Comics* McCloud focuses his analysis on the art form itself exploring the creation of comics from the broadest principles to the sharpest details like how to accentuate a character's facial muscles in order to form the emotion of disgust rather than the emotion of surprise And he does all of it in his inimitable voice and through his cartoon stand-in narrator mixing dry humor and legitimate instruction McCloud shows his reader how to master the human condition through word and image in a brilliantly minimalistic way Comic book devotees as well as the most uninitiated will marvel at this journey into a once underappreciated art form [The Art of Making Comic Books](#) Michael Pellowski,1995 Explains how to develop characters plot story lines use storyboards and create comic book art

Arts-Based Educational Research and Qualitative Inquiry by Thalia M. Mulvihill and Raji Swaminathan, 2019-11-04. Awarded QRSIG's Honorable Mention for 2021. 2020 AESA Critics Choice Book Award Winner. *Arts Based Educational Research and Qualitative Inquiry* introduces novice qualitative researchers within education and related fields to arts based educational research. ABER: Abundant prompts and exercises are provided to help readers apply the concepts and experiment with various applications of the ideas presented. The authors walk the path with novice researchers, offering a variety of approaches to the practice of arts based methods while providing a guided overview of ABER and include pedagogical features in each chapter. Exercises are designed to assist educational researchers who wish to expand their repertoire of methodologies. The authors also weave into the discussion the possibilities and limitations of many types of arts based methods while introducing readers to the growing methodological literature. By offering a tapestry of ways to engage the novice researcher, the book illustrates that it is not always possible to separate cognitive findings from aesthetic knowing. This book will help qualitative researchers to expand their methodologies to include arts based approaches to their projects and by doing so, reshape their identities as qualitative researchers. It also offers some evaluative criteria and tool kits for experimenting with various arts and educational research.
