Berkeley An Introduction:

Selections from Berkeley George Berkeley, Alexander Campbell Fraser, 1879 **Selections from Berkeley**, George Berkeley, Alexander Campbell Fraser, 2020-08-04 **Selections from Berkeley** George Berkeley, 1972 Berkeley Jonathan Dancy, 1987 This new introduction to the main themes of Berkeley's philosophy assumes no previous knowledge of philosophy and will be accessible to first year students and to the interested general reader It also offers and defends its own interpretation of Berkeley position Jonathan Dancy argues that we understand Berkeley's idealism best if we take seriously his claim that realism the view that material things have an existence independent of the mind derives from a mistaken use of abstraction Stress is laid on Berkeley's determination to use idealism to bring his God as close to us as possible Instances of this are his claims that the world we live in is a collection of ideas in God's mind and that natural events are divine utterances which science is the attempts to interpret Dancy also discusses Berkeley's attack on the distinction between primary and secondary qualities and his views on perception and knowledge There is an account of his theory of the mind and of the nature of human action and a final chapter contrasts the interpretation offered here with others Students who have read this book will be well equipped to understand and assess the frequent references to Berkeley in current literature *Selections from Berkeley. Wang,1988 *Selections From Berkeley* Alexander Campbell Fraser,2015-06-26 Excerpt from Selections From Berkeley With an Introduction and Notes for the Use of Students in the Universities In this Edition the verbal expression of the thought contained in the Editor s Historical Introduction to the Selections as well as in his Prefatory Notes and Annotations has been amended Some additional philosophical problems have been suggested The design in each of the Three Parts into which the Selections are divided and the mutual relations of those Parts have been made more obvious The Second Part which follows the First in logical order although it may with advantage come first in the order of study consists of psychological analyses which illustrate the gradual evolution of mind in the individual from its rise in sense to the faith in Divine Reason that is unconsciously presupposed even in sense perception The First Part with its metaphysical Immaterialism discusses the claim of Matter and physical causation to account adequately for self conscious life and the changes in nature The Third Part suggests the immanence of Active Reason in the universe and in man It is hoped that the book is now better fitted for its intended use as an aid to reflection on the spiritual constitution of man and the universe in connection with fundamental questions raised by contemporary Materialism and that it is thus less unworthy of the indulgent reception which it has already met with in Britain and America About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the
