Ragusa,2014-01-08 In our increasingly global world individuals are highly mobile and interconnected Politics policies and  
technologies foster interconnection amongst and within countries as individuals relocate from one place to another One key  
issue facing developed and developing countries is urban overcrowding In Australia urban density is one factor prompting  
institutions and individuals to embrace rural revival as a possible solution to urban congestion and rural decline In the past  
decade rural Australia has received heightened publicity and interest as a lifestyle destination encouraged by national  
decentralization policies to alleviate urban overcrowding particularly the metropolises Melbourne and Sydney regional  
councils marketing initiatives and international refugee relocation Rural communities struggle in contrast with urban  
counterparts for several often complex reasons The realities of rural life are frequently marginalized while marketing  
campaigns evoke stereotypical imagery of idyllic lifestyles and bucolic pastures to sell dreams of country bliss to fatigued  
urbanites This edited e book is a collection of articles that explores rural realities of country life in Australia for global  
audiences interested in rurality health and well being By transcending disciplinary specific boundaries this multi disciplinary  
book not only presents contemporary challenges but also equips readers with evidence based knowledge to improve  
resilience in communities and individuals facing key issues such as aging depression disability environmental degradation  
limited service delivery and social isolation Utilizing a variety of social science research methods each chapter will enhance  
readers insights about rural amenities geography identity culture health and governance which impact wellbeing and  
lifestyle satisfaction Collectively this book exposes readers to ideas from a dynamic range of experts in the humanities social  
and natural sciences to encourage a holistic approach to developing solutions for a complex social world The content of this  
volume will interest a wide audience of graduates and undergraduates researchers professional practitioners and  
policymakers involved with non profit and government organizations and interested community members      *Australia*
