generals in the field The authors explore the strategic decisions made during NATO missions in Bosnia Herzegovina Kosovo
Macedonia Afghanistan Somalia and Libya Competitive Strategy Benoit Chevalier-Roignant, Lenos Trigeorgis, 2014-08-29
A new paradigm for balancing flexibility and commitment in management strategy through the amalgamation of real options
and game theory Corporate managers who face both strategic uncertainty and market uncertainty confront a classic trade off
between commitment and flexibility They can stake a claim by making a large capital investment today influencing their
rivals behavior or they can take a wait and see approach to avoid adverse market consequences tomorrow In Competitive
Strategy Beno t Chevalier Roignant and Lenos Trigeorgis describe an emerging paradigm that can quantify and balance
commitment and flexibility option games by which the decision making approaches of real options and game theory can be
combined The authors first discuss prerequisite concepts and tools from basic game theory industrial organization and real
options analysis and then present the new approach in discrete time and later in continuous time Their presentation of
continuous time option games is the first systematic coverage of the topic and fills a significant gap in the existing literature
Competitive Strategy provides a rigorous yet pragmatic and intuitive approach to strategy formulation It synthesizes
research in the areas of strategy economics and finance in a way that is accessible to readers not necessarily expert in the
various fields involved Drones and US Grand Strategy in the Contemporary World Francis N. Okpaleke, 2023-12-23 This
book makes a compelling case that lethal drone deployment as a counterterrorism tool and instrument of statecraft in
targeted states engenders far reaching consequences for US grand strategy By examining how successive US administrations
since 9 11 have deployed drones in pursuant of different typologies of US grand strategic objectives the book probes the
putative political and strategic goals drones supposedly advance and the impact of its continued proliferation for US for

international security The book provides a powerful base of evidence for policy makers and researchers by pointing to the perils of deployment of drone technology beyond their immediate or short term objectives It also explores how non state actors and authoritarian regimes such as armed groups are harnessing armed drone technologies for their own political and military ends as well as the underlying implications for US grand strategy and international security at large *Whitaker's Books in Print*, 1998 *Classic Readings in Urban Planning* Jay M. Koko, 2008 Since the end of the Cold War Africa has witnessed a political rebirth and second liberation as decades of autocracy and dictatorship became gradually replaced by a new wave of democratization and plural political competition This political rebirth has revived the Afro optimism that accompanied the independence decade of the 1960s This optimism however co exists with protracted and deadly conflicts in many parts of the continent from wars in Rwanda Democratic Republic of Congo and Somalia to stalemate in democratic reform in Niger Guinea and Cameroon and democratic retraction in Uganda Additionally Africa faces many problems including wars famine refugees internal displacement and a host of diseases such as HIV AIDS Similarly despite the adoption of constitutions that guarantee the basic human rights and freedoms by many African states human rights violations remain rampant throughout the continent s political landscape Democracy and Culture An African Perspective is an analysis of the democracy project in Africa Basically the contributors

seek answers to a number of fundamental questions How is democracy to be defined in the African context Is the Western style democracy which is being adopted in many parts of Africa culturally and environmentally neutral Can it really be replicated in Africa And what is the role of African culture in the current democracy project Strategic Management Frank T.
