Architectural Drafting R. M. Brayton, 1976 *Architectural Drafting: Residential and Commercial* Thomas L. Obermeyer, Thomas Obermeyer, 1993-01-25 This unique text which focuses on architectural drafting skills presents information based on current drafting standards and trends in the architectural industry. A very graphically organized text, it will appeal to both students and instructors. The hand-lettered text and illustrations are easy to read and relate well to the details. Step-by-step procedures are given for laying out and drafting working drawings. This text instructs students to prepare sets of drawings in light commercial and residential construction. Basic drafting procedures, project assembly techniques, computer-aided drafting, building materials, problem-solving, site plans, floor plans and schedules are among the up-to-date topics covered. Cut-out models assist students in visualizing buildings in three dimensions. Working drawings are organized in the text so that students can see the complete picture. The models and working drawings include a college library, a fire station and a skyway house. The text contains numerous end-of-chapter questions and drafting problems as well as abundant illustrations and examples. The Instructor's Guide contains learning objectives, answers to end-of-chapter questions and drafting problems.
