Cocks Funeral:

The Story in Primary Instruction Samuel Buell Allison, Hannah Avis Perdue, 1902 **Japan**, 1922 **Cocks's Musical Miscellany**, **"The" Religious System of China** J. J. M. "de" Groot, 1892 The Religious System of China Jan Jakob Maria Groot, 1892 Wellington's Worst Scrape Carole Divall, 2013-01-19 The disastrous retreat and near disintegration of Sir John Moore's army on the road to Corunna in 1809 is traditionally regarded as the low point in the history of the British intervention in the Peninsular War. Yet under the Duke of Wellington the British and their allies suffered defeats and retreats that tend to be overshadowed by the series of victories that eventually drove the French from Portugal and Spain. None of these setbacks was graver than the retreat that followed the disastrous failure of the siege of Burgos in 1812. It is this less than glorious phase of the Peninsular campaign that is the subject of Carole Divall's latest study of the British army of the Napoleonic Wars. By reconstructing events in close detail and by bringing together many primary sources she gives a vivid account of what happened and why Wellington himself recognized the mistakes and miscalculations that led to the potentially catastrophic situation in which he placed his men. He described it as his worst scrape. Yet most of the letters, journals, and memoirs that have survived praise the skill with which he saved Britain's only army from disaster. Carole Divall weaves together Wellington's dispatches with the eyewitness testimony left by British and Portuguese officers and men, by civilians, and by the French. A fascinating multi-layered impression emerges of the siege of Burgos itself and the sequence of maneuvers that preceded it. She describes in authentic detail the tense decision-making and the misjudgments that were made on the allied side and the headlong retreat that followed as the British fled from two French armies that threatened to trap and destroy them. Carole Divall's in-depth study of a pivotal and neglected episode in the Peninsular War gives a fascinating insight into the character of the fighting at every level and into the strengths and weaknesses of Wellington's command.

Women's Writing and the Circulation of Ideas George Justice, Nathan Tinker, 2002-03-07 It was widely believed that women in Renaissance and early modern England either did not write or did not publish their work. It has become clear that instead of using the emerging technology of print, many women writers circulated their works by hand with friends, copying and recopying poems, plays, and novels from each other or with the help of professional scribes. Through manuscript publication, women's writing reached wide audiences and was collected and admired by both men and women. *Women's Writing and the Circulation of Ideas* contributes to the discovery and re-evaluation of women writers by examining the writing and manuscript publication of key authors from 1550 to 1800. The collection's analysis of the range and meaning of women's writing and manuscript publication during the rise of the print industry alters our understanding of the history of the book and early modern British literature alike.
