The Derrida Reader Jacques Derrida, 1998 In the English speaking world Jacques Derrida's writings have most influenced the discipline of literary studies Yet what has emerged since the initial phase of Derrida's influence on the study of English literature classed under the rubric of deconstruction has often been disowned by Derrida What then can Derrida teach us about literary language about the rhetoric of literature and about questions concerning style form and structure The Derrida Reader draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language the idea of the literary and questions of poetics and poetry The essays discuss single tropes or concepts a figure such as metaphor the ideas of titles and signatures proper names and Derrida's thinking on such subjects as undecidability or aporia The editor's introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question The introduction also outlines each essay's main points its usefulness for reading literary texts and its particular area of interest The Derrida Reader thus provides students of literature with a focused contextualized and readily understandable volume

Derrida Reader Julian Wolfreys, 2019-08-08 This reader brings together selected complete or self contained texts which are not generally anthologised particularly those which deal with specifically literary writers and literary topics The collection focuses on a number of texts which address French writers and writers in French such as Valery Rousseau Levi Strauss Baudelaire Mallarme while also addressing other concerns prominent throughout Derrida's career as a writer such as Plato Freud and Marx

Derrida David Wood, 1992 Jacques Derrida's prolific output has been the delight and sometimes the despair of philosophers and literary theorists for over twenty years His influence on the way we read theoretical texts continues to be profound No serious contemporary thinker can fail to come to terms with deconstruction and there have been a number of monographs devoted to his work Very few however have combined a critical edge with a detailed knowledge of his writing The contributors to this volume were each asked in the most positive sense to take just such a critical approach There are substantive papers by Jean Luc Nancy Manfred Frank John Sallis Robert Bernasconi Irene Harvey Michel Haar Christopher Norris Geoff Bennington John Llewelyn and an introduction by David Wood

[Jacques Derrida and the Humanities](#) Tom Cohen, 2001 This is a trans disciplinary collection dedicated to the work of Jacques Derrida and his work in the humanities

The Narrative Reader Martin McQuillan, 2000 The Narrative Reader aims to provide a comprehensive survey of narrative theories ranging from Plato to Post Structuralism The selection of texts is bold and broad demonstrating the extent to which narrative permeates the entire field of literature and culture It shows the ways in which narrative crosses disciplines continents and theoretical perspectives and is a long overdue and welcome addition to the field The Narrative

Reader will fascinate students and researchers alike providing a much needed point of entry to the increasingly complex field of narrative theory
