Shepard, 1971 USA Research study of the impact on occupational psychology of automation and technological change with particular reference to the integration into or alienation from work of industrial workers and office workers describes the research methods used covers computerization and EDP personnel the effect of the changing division of labour on employees attitudes and Motivation to work and concludes that automated technology reduces the levels of alienation among both office employees and factory workers Bibliography pp 145 to 155 references and statistical tables

Designing Ergonomic, Safe, and Attractive Mining Workplaces Joel Lööv, Bo Johansson, Eira Andersson, Jan Johansson, 2018-11-12 The mining industry has experienced important improvements with regard to its safety record and work environment But there is still room for further improvement and the mining industry now faces the challenge of securing a future workforce The current workforce is aging and mining work increasingly requires a more qualified workforce *Designing Ergonomic Safe and Attractive Mining Workplaces* seeks to give an understanding of what must be considered in the design of mining workplaces By reviewing and discussing the historic and current development of the mining industry as well as problems related to the safety ergonomics and attractiveness of mining workplaces it demonstrates that the challenges facing the mining industry often need to be solved on a case to case basis The processes through which these issues are managed are of significant importance To facilitate a proactive approach the book covers the principles of systematic work environment management together with examples of methods for risk management and work environment monitoring It introduces a systematic and iterative design and planning method for the mining industry This method acknowledges that all relevant stakeholders must be able to influence the design of ergonomic safe and attractive mining workplaces Features Takes a holistic and sociotechnical approach to current and future problems of the mining industry which normally are dealt with in isolation or through technology Reviews historic current and future issues in the mining industry with regards to workplace attractiveness health safety mechanization automation and work organization Provides several examples of these issues and attempts to address them successfully and unsuccessfully Covers the principles of systematic work environment management together with examples of methods for risk management and work environment monitoring for pro actively dealing with work environment issues Introduces a systematic and iterative design and planning method for the mining industry that aims to avoid problems of traditional planning approaches and increase stakeholder and employee participation

The Internet, Organizational Change and Labor David C. D. Jacobs, Joel Yudken, 2003-07-31 Examining what is happening to work organizations and unions in the age of the Internet this fascinating

book reveals both the opportunities and dangers for workers in the digital age

The Crosswinds of Freedom, 1932-1988 James MacGregor Burns, 2012-04-10 A Pulitzer Prize winner's immensely readable history of the United States from FDR's election to the final days of the Cold War. Publishers Weekly: The Crosswinds of Freedom is an articulate and incisive examination of the United States during its rise to become the world's sole superpower. Here is a young democracy transformed by the Great Depression, the Second World War, the Cold War, the rapid pace of technological change, and the distinct visions of nine presidents. Spanning fifty-six years and touching on many corners of the nation's complex cultural tapestry, Burns's work is a remarkable look at the forces that gave rise to the American Century.

The Evolution of Industrial Systems Timothy Leggatt, 2018-10-31 This book, first published in 1985, tackles simultaneously three major questions about the course of industrial evolution: what are the features of the industrial systems that have developed outside Western capitalism? What are the salient evolutionary developments now occurring in all advanced capitalist systems? What light can social theory throw upon the evolution of industrial systems thus far and in the future? In answering these questions, the author provides an exposition of how the Soviet system works and how the Japanese system developed, a critical analysis of three issues of major contemporary concern: the control of giant corporations, the impact of automation, and the shift to service employment, and a commentary on the theories of classical and contemporary social thinkers. Concluding with his own conceptualisation of the determinants of industrial evolution, the author also offers his own evaluation of the needs of the advanced industrial societies.

The American Experiment James MacGregor Burns, 2013-05-21 The Pulitzer Prize-winning author's stunning trilogy of American history spanning the birth of the Constitution to the final days of the Cold War. In these three volumes, Pulitzer Prize and National Book Award winner James MacGregor Burns chronicles with depth and narrative panache the most significant cultural, economic, and political events of American history. In *The Vineyard of Liberty*, he combines the color and texture of early American life with meticulous scholarship. Focusing on the tensions leading up to the Civil War, Burns brilliantly shows how Americans became divided over the meaning of Liberty. In *The Workshop of Democracy*, Burns explores more than a half-century of dramatic growth and transformation of the American landscape through the addition of dozens of new states, the shattering tragedy of the First World War, the explosion of industry, and in the end, the emergence of the United States as a new global power. And in *The Crosswinds of Freedom*, Burns offers an articulate and incisive examination of the US during its rise to become the world's sole superpower through the Great Depression, the Second World War, the Cold War, and the rapid pace of technological change that gave rise to the American Century.

Work, Inc. Edmund Byrne, 2010-09-09 Examining legal and philosophical problems for a new social contract that is fair to workers.

Healthy Work Namir Khan, Nina Nakajima, Willem H. Vanderburg, 2004-11-08 The latest in a series focused on improving health conditions, this volume addresses work environments, bringing together diverse sources of literature that support preventive approaches to work design and organization. This reference provides an overview of

relevant literature to engineers managers accountants occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects Other titles in the series include Healthy Cities Sustainable Production Sustainable Energy *Alienation as a Social Phenomenon* Adam Schaff,1980 **Routledge Library Editions: Business and Economics in Asia** Various,2021-07-14 This set examines a vast range of topics covering all experiences of business and economics from across Asia Dealing with early banking systems in China the industrialisation of Korea and Taiwan the evolution of Japanese business practices economic development protectionist policies industrial investment trade tourism and a host of other topics the books collected here form a vital reference resource across a wide subject area

C.R.I.S. Annadel N. Wile,Arnold Jaffe,1978 **Productivity** ,1989 **Mechanisms for Aiding Worker Adjustment to Technological Change: Conceptual issues and evidence** Larry M. Blair,1974 *Thought and Practice* ,1982

Toward a New Sociology Charles H. Anderson,Jeffrey Royle Gibson,1978 **Indian Psychological Review** ,1976

Social Problems Thomas J. Sullivan,1980 *Personal Communication in Human Relations* Kim Giffin,Bobby R. Patton,1974 *Data Processing* Perry Edwards,Bruce Broadwell,1980
