The Complete Linux Shell Programming Training Course Ellie Quigley, Scott Hawkins, 2000-12 This multimedia tutorial and book package teaches Linux shells programming It guides the reader through all of the Linux equivalents of UNIX shells and key utilities including bash tcsh and gawk 50 real world shell scripts that automate routine system administration are included **Linux Shells by Example** Ellie Quigley, 2000 CD ROM contains all source code and datafiles from the book [The British National Bibliography](#) Arthur James Wells, 2002 *The Complete C++ Training Course* Harvey M. Deitel, Paul J. Deitel, 1998 Specially designed for new programmers and students COBOL VB and other programmers C programmers and C programmers [UNIX Shells by Example](#) Ellie Quigley, 1999 One book is all you need to learn UNIX shell programming This fully updated second edition is a complete step by step guide to three essential UNIX shells C Bourne and Korn and three essential UNIX shell programming utilities awk sed and grep There are hands on exercises for every topic and a CD ROM that contains all the source code and data files used in the book *Brave New Digital Classroom* Robert J. Blake, 2008 Brave New Digital Classroom deftly interweaves results of pedagogical research and descriptions of the most successful computer assisted language learning CALL projects to explore how technology can best be employed in the foreign language curriculum to assist the second language acquisition process Directed to all language teachers whether at the school or the postsecondary level with or without prior experience this book focuses on how to use new technologies effectively Blake urges teachers to move beyond a simple functional competence of knowing how to use the tools toward first a critical competence realizing what the various tools are good for and ultimately a rhetorical competence of knowing how the tools will help transform the learning environment This book examines the effective use of a range of technologies from Internet sites through computer mediated communication such as synchronous chatting and blogs to distance learning At the end of each chapter questions and activities demonstrate the interactionist learner centered pedagogy Blake espouses An invaluable reference for experienced researchers and CALL developers as well as those of limited experience Brave New Digital Classroom is also ideal for graduate level courses on second language pedagogy It will also be of interest to department chairs and administrators seeking to develop and evaluate their own CALL programs
