Blood Libel:

Blood Libel Magda Teter, 2020-01-28 A landmark history of the antisemitic blood libel myth how it took root in Europe spread with the invention of the printing press and persists today Accusations that Jews ritually killed Christian children emerged in the mid twelfth century following the death of twelve year old William of Norwich England in 1144 Later continental Europeans added a destructive twist Jews murdered Christian children to use their blood While charges that Jews poisoned wells and desecrated the communion host waned over the years the blood libel survived Initially blood libel stories were confined to monastic chronicles and local lore But the development of the printing press in the mid fifteenth century expanded the audience and crystallized the vocabulary images and facts of the blood libel providing a lasting template for hate Tales of Jews killing Christians notably Simon of Trent a toddler whose body was found under a Jewish house in 1475 were widely disseminated using the new technology Following the paper trail across Europe from England to Italy to Poland Magda Teter shows how the blood libel was internalized and how Jews and Christians dealt with the repercussions The pattern established in early modern Europe still plays out today In 2014 the Anti Defamation League appealed to Facebook to take down a page titled Jewish Ritual Murder The following year white supremacists gathered in England to honor Little Hugh of Lincoln as a sacrificial victim of the Jews Based on sources in eight countries and ten languages Blood Libel captures the long shadow of a pernicious myth

Blood Libel Magda Teter, 2020-01-07 Drawing on sources in eight countries and ten languages Magda Teter tells the history of the antisemitic blood libel myth whose long shadow extends from premodern monastic chronicles to Facebook The vocabulary and images that crystallized and spread with the invention of the printing press are still with us as are their pernicious consequences

The Blood Libel Legend Alan Dundes, 1991-10-15 Alan Dundes in this casebook of an anti Semitic legend demonstrates the power of folklore to influence thought and history According to the blood libel legend Jews murdered Christian infants to obtain blood to make matzah Dundes has gathered here the work of leading scholars who examine the varied sources and elaborations of the legend Collectively their essays constitute a forceful statement against this false accusation The legend is traced from the murder of William of Norwich in 1144 one of the first reported cases of ritualized murder attributed to Jews through nineteenth century Egyptian reports Spanish examples Catholic periodicals modern English instances and twentieth century American cases The essays deal not only with historical cases and surveys of blood libel in different locales but also with literary renditions of the legend including the ballad Sir Hugh or the Jew s Daughter and Chaucer s The Prioress s Tale These case studies provide a comprehensive view of the complex nature of the blood libel legend The concluding section of the volume includes an analysis of the legend that focuses on Christian misunderstanding of the Jewish feast of Purim and the child abuse component of the legend and that attempts to bring psychoanalytic theory to bear on the content of the blood libel legend The final essay by Alan Dundes takes a distinctly folkloristic approach examining the legend as part of the belief system that Christians

developed about Jews This study of the blood libel legend will interest folklorists scholars of Catholicism and Judaism and many general readers for it is both the literature and the history of anti-Semitism

Blood and Belief David Biale,2007-10-23 Blood contains extraordinary symbolic power in both Judaism and Christianity as the blood of sacrifice of Jesus of the Jewish martyrs of menstruation and more Yet though they share the same literary cultural and religious origins on the question of blood the two religions have followed quite different trajectories For instance while Judaism rejects the eating or drinking of blood Christianity mandates its symbolic consumption as a central sacrament How did these two traditions both originating in the Hebrew Bible s cult of blood sacrifices veer off in such different directions With his characteristic wit and erudition David Biale traces the continuing changing and often clashing roles of blood as both symbol and substance through the entire sweep of Jewish and Christian history from Biblical times to the present

Blood Libel and Its Derivatives Raphael Israeli,2012-08-14 At the doorstep of the twenty first century one would expect that medieval concepts such as blood libel the accusation that Jews kill children to use their blood in religious ritual would have been discarded by any civilized human being Certainly in the Christian world where the story originated and endured for centuries modern attitudes have nearly erased these barbaric accusations But in Arab and Islamic worlds where enmity towards Israel and Zionism has conditioned beliefs attitudes positions and fantasies blood libel and similar charges are still part of life Most people are unaware of the history of blood libel and do not perceive links between it and many of the false accusations currently hurled against the state of Israel Raphael Israeli argues that individuals and organizations guilty of human rights crimes project crimes onto Israel to avoid awareness of their own guilt Certainly when countries ruled by dictators set the agenda of the UN Council for human rights Israel is consistently censured and condemned Accusations of apartheid and charges of discrimination against Muslims are frequently made Israel is accused of plots against Muslims in order to harm their productive sectors of using weapons of mass destruction to commit genocide against Arabs of injecting poisonous substances into Palestinian children of poisoning Arab lands under the guise of agricultural aid and of laying siege to peaceful citizens All of these charges are derivatives of blood libel and have been adopted by Middle East Jihadists in their struggle against Israel This volume aims to explain the origins of the charge of blood libel and define the ways its derivatives have achieved acceptance in certain parts of the world today
