Comparing Political Regimes A Thematic Introduction:

Comparing Political Regimes Alan Siaroff, 2022-12-31 *Comparing Political Regimes* provides a current and comprehensive empirical assessment of the world's 195 sovereign states. Alan Siaroff analyses and classifies countries in terms of economic development, political evolution, and state strength, ultimately outlining and contrasting the aspects of four regime types: liberal democracies, electoral democracies, semi-open autocracies, and closed autocracies. The fourth edition explains institutional differences within democracies and autocracies, respectively, including how regimes evolve in key countries and how this change is incremental. An invaluable reference for students, this book provides a thorough foundational introduction to the comparative politics of countries and contains several unique figures and tables on the world's sovereign states. This new edition modifies the conceptual focus regarding some features of democracy and democratic party systems, expands on variations in autocracies, and adds a new chapter on the historical evolution of democracy, including key thresholds of representative democracy and levels of participation and competition at various historical junctures for all countries.

Comparing Political Regimes Alan Siaroff, 2005 This book provides a comprehensive and current assessment of the world's political systems. It does so primarily by outlining and contrasting the aspects of four different regime types: liberal democracies, electoral democracies, semi-liberal autocracies, and closed autocracies, and classifying all 192 countries within this typology. Empirical explanations answer the question of why countries tend to be in one regime type rather than another.

BOOK JACKET *Comparing Political Regimes* Alan Siaroff, 2013 *Comparing Political Regimes* provides a comprehensive assessment of the world's political systems by outlining and contrasting the aspects of four different regime types: liberal democracies, electoral democracies, semi-liberal autocracies, and closed autocracies. The third edition is thoroughly revised and updated. It now incorporates the two new countries that have appeared since the last edition: Kosovo and South Sudan, and covers the regime changes that have occurred in many countries, including the liberalization but not yet actual democratization of the Arab Spring. Extra material has also been added on demography and political economy, especially with regards to economic development and on secession of regions.

A Functional Theory of Government, Law, and Institutions Kalu N. Kalu, 2019-07-12 This book examines the notion that while states may differ in terms of ideology, economic system, and institutional architecture, their role as an organizing framework for system-wide political action and international relations is contingent on a series of competing and oftentimes mutually exclusive factors. This work clarifies factors that contribute to our understanding of the critical roles of systemic and sub-systemic elements of society and how they reinforce the reciprocal problems of human and social organizations and the institutionalization processes that help to constrain them.

Routledge Handbook of Comparative Political Institutions Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 *The Routledge Handbook of Comparative Political Institutions* HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions.

in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation The final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London

Against All Odds Max Bader, 2025-10-01 As part of a wider democracy promotion effort political parties in Georgia and Ukraine as in most other post communist states have received assistance from a number of non governmental but governmentfunded western organizations for most of the post communist period This assistance however has persistently failed to contribute to making parties in the two former Soviet republics substantially more stable democratic and

representative In searching for an answer to why the assistance has not been more effective this thesis looks both at the nature of the assistance and the particularities of party politics in Georgia and Ukraine The thesis argues that as a consequence of domestic constraints on party development political parties in Georgia and Ukraine were essentially unsuitable as recipients of party assistance and that therefore party assistance was poorly positioned to make an impact

Democracy Under Stress Paul Chambers,Aurel Croissant,2010 **Activating the Citizen** Joan DeBardeleben,J.
