Breakthrough Zone Roy Langmaid, Mac Andrews, 2004-11-19 A breakthrough is a discontinuous change that makes new things possible and takes performance in a market to a new level This book is about creating breakthroughs in large organizations where so much energy is often committed to existing activity Drawing on their wide experience of working with top companies including British Airways BUPA and Carphone Warehouse Ray Langmaid and Mac Andrews argue that it is customers themselves who are best placed to conceive great new products and services but that they will need time and trust to work out how these might best be created Traditional ways of talking to customers such as focus groups lack honesty and place perceptual barriers what is needed is a new approach that is open honest and ongoing The solution is the Breakthrough Zone a creative meeting of customer and executives in which desires are unlocked and needs identified Versatile enough to be used with groups of any size this process is built on personal relationships and proven to generate really innovative ideas for brand extensions and product development Provides the tools and techniques to enable you to get closer to your customers a step by step guide shows you how to implement the Breakthrough Zone process Explores why this type of communication is so much more effective than focus groups or traditional database driven approaches to engaging in customer dialogue Previous innovations generated in the Breakthrough Zone include BA s Beds for Business BT s It s Good to Talk and new market strategies for VISA and Dell
