Breeding Ourselves To Death:

Breeding Ourselves to Death Lawrence Lader,2002 **Breeding ourselves to death, with a foreword by P.R. Ehrlich** Lawrence Lader, *Subverted* Sue Ellen Browder,2015-07-01 Contraception and abortion were not originally part of the 1960s women s movement How did the women s movement which fought for equal opportunity for women in education and the workplace and the sexual revolution which reduced women to ambitious sex objects become so united In *Subverted* Sue Ellen Browder documents for the first time how it all happened in her own life and in the life of an entire country Trained at the University of Missouri School of Journalism to be an investigative journalist Browder unwittingly betrayed her true calling and became a propagandist for sexual liberation As a long time freelance writer for *Cosmopolitan* magazine she wrote pieces meant to soft sell unmarried sex contraception and abortion as the single woman s path to personal fulfillment She did not realize until much later that propagandists higher and cleverer than herself were influencing her thinking and her personal choices as they subverted the women s movement The thirst for truth integrity and justice for women that led Browder into journalism in the first place eventually led her to find forgiveness and freedom in the place she least expected to find them Her in depth research her probing analysis and her honest self reflection set the record straight and illumine a way forward for others who have suffered from the unholy alliance between the women s movement and the sexual revolution *The Rise Of The Antichrist* Kamran Faqir,2019-04-02 *The Rise of The Antichrist* carefully investigates the measurable effects of politics religion science and technology on the human psyche All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems which have been foretold by all prophets or messengers dutifully sent to every nation over time This book carefully explores the much debated topic of the Antichrist regarding his future emergence Will he lead humanity to eternal darkness or enlightenment Although modern science and human history popularly refer to the last 5 000 15 000 years of development in reality there are signs and evidence that human development is considerably older with possibilities of supernatural or otherworldly intervention This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic with a possibility of alien or supernatural influence which was captured on stone glyphs Throughout history there have been developed mighty empires whose chosen kings proclaimed to be Gods But were they actually inter dimensional beings This book will ideally suit readers with an active interest in religion historical events and those interested in a thought provoking read [The Abortion Market](#) Katherine J. Parkin,2025-09-16 The abortion market was a powerful economic force in American life Before legalization lowered the cost one million women each year collectively paid upward of 750 million for abortions In this illuminating book Katherine Parkin reveals the strength of a massive consumer market that involved loans advertising and travel as well as the costs associated with the procedure itself Laying the foundation for the emergence of a public market that facilitated the buying and selling of abortions wealthy population control ideologues encouraged positive public discourse on abortion

funded medical studies and waged legal battles White middle and upper class women sought out abortions and paid exorbitantly for them Male entrepreneurs emerged to capitalize on the booming market and profit from the incredible demand Advertising on billboards and in college newspapers men profited by providing the phone number getting kickbacks for delivering patients and arranging for women s travel to Mexico Puerto Rico England and Japan Students demanded abortion access and organized when it came at a steep cost especially to the poorest among them Abortion providers in Kansas California and Washington D C attracted out of state consumers with some women aided by their universities or by medical insurance Between 1970 and 1973 entrepreneurs providers and hundreds of thousands of women seeking to buy abortions headed to New York City heralded by some as the abortion capital of the world While we may have imagined that securing an abortion was best understood as a hidden woman only experience The Abortion Market reveals the extent to which businesses and businessmen openly selling abortion access shaped the experience of buying abortions for millions of women

The Sterilization Movement and Global Fertility in the Twentieth Century Ian R. Dowbiggin,2008-04-11 Many would be surprised to learn that the preferred method of birth control in the United States today is actually surgical sterilization This book takes an historical look at the sterilization movement in post World War II America a revolution in modern contraceptive behavior Focusing on leaders of the sterilization movement from the 1930 s through the turn of the century this book explores the historic linkages between environment civil liberties eugenics population control sex education marriage counseling and birth control movements in the 20th century United States

Population Control Steven Mosher,2017-07-05 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China s infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The population controllers have not only studiously ignored mounting evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover

many in the movement are not content to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment *Margaret Sanger* Miriam Reed,2003 This book includes Sanger s writings on marriage and children the labor movement socialism prison reform pacifism eugenics and sex education The Chick Book, from the Breeding Pen Through the Shell to Maturity Reliable Poultry Journal Publishing Company,1910 Death of a Hero Richard Aldington,1929 Aldington was married to lesbian writer Hilda Doolittle known as H D in her publications Russ Castonguay A First Book in Politics and Government Herbert D. Rosenbaum,1972 American Book Publishing Record Cumulative, 1950-1977: Title index R.R. Bowker Company. Department of Bibliography,1978 **The Mankind Quarterly** Council for Social and Economic Studies (U.S.),2004 **History of the Devon breed of cattle. With contrib. from W. Housman, and other authorities** James Sinclair,1893 *The Journal of Social, Political and Economic Studies* ,2007 *History of the Devon Breed of Cattle* James Sinclair,Devon Cattle Breeders' Society,1893 History of the Devon Breed of Cattle by Devon Cattle Breeders Society first published in 1893 is a rare manuscript the original residing in one of the great libraries of the world This book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation Restoration Editors mission is to bring long out of print manuscripts back to life Some smudges annotations or unclear text may still exist due to permanent damage to the original work We believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it **The Publishers' Trade List Annual** ,1972 The Publishers Weekly ,1971 **Feminist Heidegger** Jill Drouillard,2025-03-01 This book begins with an unexplored and unanswered question that Martin Heidegger raises in a 1923 Freiburg course Problem What is woman Yet why should we care that Heidegger raises this problem What could he a member of the National Socialist Party help feminists understand about responding to the woman question How can Heidegger help us understand our own historical climate in which this question continues to hold significance Jill Drouillard divides Heidegger s thought into two categories to think about the sexed gendered experiences that coordinate our birth 1 the one that suspends the woman question and that provides useful resources for thinking the fluidity of sex gender and 2 the one that provides a totalized reply to this query by manipulating tropes of the feminine to advance a politico poetic project of Nazi politics She uses Heidegger as a cautionary tale to demonstrate the harm that occurs when society tries to define the being or what is of woman in any definite sense In some chapters she teases apart how Heidegger may have offered a reply to the woman question and in others shows what happens in today s society when law bioethics politics and pedagogy reckon with this query **The Atlantic Monthly** ,1921
