Bridging Beyond:

Euroscepticism as a Transnational and Pan-European Phenomenon John FitzGibbon, Benjamin Leruth, Nick Startin, 2016-08-19 As the EU enters an increasingly uncertain phase after the 2016 Brexit referendum Euroscepticism continues to become an increasingly embedded phenomenon within party systems non party groups and within the media Yet academic literature has paid little attention to the emergence of and increased development of transnational and pan European networks of EU opposition As the gap between Europe s mainstream political elites and an increasingly sceptical public has widened pan European spheres of opposition towards the EU have developed and evolved The volume sets out to explain how such an innately contradictory phenomenon as transnational Euroscepticism has emerged It draws on a variety of perspectives and case studies in a number of spheres the European Parliament political parties the media civil society and public opinion Examining to what extent the pan European dimension of Euroscepticism is becoming increasingly influential it argues that opposition to European integration has for too long been viewed somewhat narrowly through the paradigm of national party politics This text will be of key interest to scholars students and professionals in EU politics European studies political parties and more broadly to comparative politics and international relations *Thy Kingdom Connected (ēmerision: Emergent Village resources for communities of faith)* Dwight J. Friesen, 2009-11-01 Networks are everywhere From our roads to our relationships from our food supply to our power grids networks are an integral part of how we live Similarly our churches denominations and even the kingdom of God are networks Knowing how networks function and how to work with rather than against them has enormous implications for how we do ministry In *Thy Kingdom Connected* Dwight J Friesen brings the complex theories of networking to church leaders in easy to understand practical ways Rather than bemoaning the modern disintegration of things like authority and structure Friesen inspires hope for a more connective vision of life with God He shows those involved in ministry how they can maximize already existing connections between people in order to spread the Gospel get people plugged in at their churches and grow together as disciples **Beyond the Street Corner** Robert F. Hesketh, 2024-12-11 This book presents an in depth investigation into street gang involvement desistance and non involvement through the lens of the Risk Factor Prevention Paradigm RFPP This framework encompasses five domains of risk and prevention family neighbourhood peers individual and school It identifies the risk and protective factors that influence young people to either engage in desist or abstain from involvement in deviant street groups Based on a comprehensive five and a half year study the author draws upon his lifelong experience living in Stockbridge Village Merseyside one of the most deprived areas in the UK marked by street gang activity and organised crime The author s unique position allows him to establish a strong rapport with young disenfranchised individuals involved in street gangs This book offers a comprehensive exploration of critical observations related to street gang involvement by integrating insights that provide a nuanced understanding of the sociocultural factors that both drive individuals toward gang involvement and contribute to their

desistance from it The author highlights key topics including the practice of drug dealing as deviant entrepreneurship the role of friendship networks in determining engagement in street gang related activities the allure of risk as a motivator for involvement and the participation of young women through relationships with young men associated with street gangs Ultimately the work offers fresh perspectives on both gang membership and non membership advocating for the development of homegrown interventions rooted in social capital through bridging and social mobility as viable strategies for addressing street gang involvement
