A symbol of the new Japan displayed at World s Fairs depicted in travel posters and celebrated as the product of a national spirit of innovation the Tokaido Shinkansen the first bullet train dubbed the dream super express represents the bold aspirations of a nation rebranding itself after military defeat but also the deep problems caused by the unbridled postwar drive for economic growth At the dawn of the space age how could a train become such an important symbol In Dream Super Express Jessamyn Abel contends that understanding the various often contradictory images of the bullet train reveals how infrastructure operates beyond its intended use as a means of transportation to perform cultural and sociological functions The multi layered dreams surrounding this high speed railway tell a history not only of nation building but of resistance and disruption Though it constituted neither a major technological leap nor a new infrastructural connection the train enchanted enthralled and enraged government officials media pundits community activists novelists and filmmakers This history of imaginations around the monumental rail system resists the commonplace story of progress to consider the tug of war over the significance of the new line Is it a vision of the future or a reminder of the past an object of international admiration or a

formidable threat Does it enable new relationships and identities or reify existing social hierarchies Tracing the meanings assigned to high speed rail shows how it prompted a reimagination of identity on the levels of individual metropolis and nation in a changing Japan *Differentiated Reading for Comprehension, Grade 3* Carson-Dellosa Publishing,2014-02-03 Differentiated Reading for Comprehension is designed to provide high interest nonfiction reading success for all readers This 64 page book focuses on third grade reading skills defined by the Common Core State Standards Each of 15 stories is presented separately for the below level on level and advanced students followed by a series of comprehension questions Grade three covers such standards as how key details support the main idea understanding the relationships and connections between parts of a text and developing an understanding point of view This series allows teachers to present the same content to below level on level and advanced students with leveled nonfiction stories It includes multiple choice fill in the blank and true false questions short answer writing practice and comprehension questions Students stay interested build confidence and discover that reading can be fun The reading passages are separated into sections with titles such as Extreme Places Amazing People Wild Animals Strange and Unexplained Fascinating Machines and Amazing Kids
