Ernest Armitage McCann,1926 **Ship Model Making** E. Armitage McCann,1926 Model Making Raymond Francis Yates,1919 **Architecture's Model Environments** Lisa Moffitt,2023-02-20 Seen through the distilling lens of the architectural model Architecture s Model Environments is a novel and far reaching exploration of the many dialogues buildings have with their environmental surroundings Expanding on histories of building technology the book sheds new light on how physical models conventionally understood as engineering experimentation devices enable architectural design speculation The book begins with a catalogue of ten original model prototypes of wind tunnels water tables and filling boxes and is the first of its kind to establish an architectural approach to fabricating such environmental models Subsequent chapters feature three precedent models that have been largely overlooked within the wider oeuvres of their authors French polymath tienne Jules Marey s 1900 2 wind tunnels Hungarian

American architects Victor and Alad r Olgyay s 1955 63 thermoheliodon and Scottish chemist and building ventilation expert David Boswell The Ventilator Reid s 1844 test tube convection experiments Moving between historic moments and the present day between case studies and original prototypes the book reveals the potent ability for models as both physical artefacts and mental ideals to reflect prevailing cultural views about the world and to even reshape those views

Fundamentally Architecture s Model Environments illustrates how environmental models reveal design insights across scales from the seam that leaks to the body that feels to the building that mediates to the world that immerses *The Modelmaker*, 1926 *Ship Model Making ...: How to make a model of the American clipper ship, Sovereign of the Seas* Ernest Armitage McCann, 1926 **Ship Model Making ...: How to make a model of the U.S. frigate, Constitution** Ernest Armitage McCann, 1927 Are You a Model? Anna-Maria Meister, Teresa Fankhänel, Lisa Beißwanger, Chris Dähne, Christiane Fülischer, Anna Luise Schubert, 2024-06-04 Are You a Model explores the model as architectural tool and practice The volume approaches architectural models not as categorical objects but through questions such as What determines a model s functions and agencies When in the design process does it unfold its power and when has it served its purpose Based on nine overarching questions the book brings together interdisciplinary voices from architecture art history as well as architectural and curatorial practice and software engineering 31 contributions interweave perspectives from various disciplines and geographies and reveal surprising affinities rather than seeking conclusive answers Models are thus not classified according to time of origin genre or material but rather understood as an epistemologically diverse practice The American Architect [and] the Architectural Review, 1922 **The Michigan Technic**, 1926 *Michigan Technic*, 1927 Index to Handicrafts, Modelmaking, and Workshop Projects Harriet P. Turner, 1936 This index is designed to answer how to make it questions The Model Engineer and Practical Electrician, 1901 **The Model Vaudeville Theatre** Norman Hugh Schneider, 1909
