Assessment Strategies For Math:

Math Assessment Strategies Denise R. Bielke, 2010 The research question addressed in this capstone was How can formative assessment be used to better understand achievement levels and inform instruction for low performing first grade math students This capstone details summative and formative assessment strategies used with first grade low performing math students The author of this capstone researched best practices in math assessments supported by the National Council of Teachers of Mathematics The author integrated assessment strategies into the mathematics curriculum to determine which ones gave the best information about the understanding of math concepts from the low performing math students in her classroom *Assessment Strategies to Inform Science and Mathematics Instruction*, 1997

Assessment in Mathematics Education Christine Suurtamm, Denisse R. Thompson, Rae Young Kim, Leonora Diaz Moreno, Nathalie Sayac, Stanislaw Schukajlow, Edward Silver, Stefan Ufer, Pauline Vos, 2016-07-07 This book provides an overview of current research on a variety of topics related to both large scale and classroom assessment First the purposes traditions and principles of assessment are considered with particular attention to those common to all levels of assessment and those more connected with either classroom or large scale assessment Assessment design based on sound assessment principles is discussed differentiating between large scale and classroom assessment but also examining how the design principles overlap The focus then shifts to classroom assessment and provides specific examples of assessment strategies before examining the impact of large scale assessment on curriculum policy instruction and classroom assessment The book concludes by discussing the challenges that teachers currently face as well as ways to support them The book offers a common language for researchers in assessment as well as a primer for those interested in understanding current work in the area of assessment In summary it provides the opportunity to discuss large scale and classroom assessment by addressing the following main themes Purposes Traditions and Principles of Assessment Design of Assessment Tasks Classroom Assessment in Action Interactions of Large Scale and Classroom Assessment Enhancing Sound Assessment Knowledge and Practices It also suggests areas for future research in assessment in mathematics education
