Dance Fever:

Censoring Sex John E. Semonche, 2007-07-20 In this gracefully written accessible and entertaining volume John Semonche surveys censorship for reasons of sex from the nineteenth century up to the present He covers the various forms of American media books and periodicals pictorial art motion pictures music and dance and radio television and the Internet The tale is varied and interesting replete with a stock of colorful characters such as Anthony Comstock Mae West Theodore Dreiser Marcel Duchamp Opie and Anthony Judy Blume Jerry Falwell Alfred Kinsey Hugh Hefner and the Guerilla Girls Covering the history of censorship of sexual ideas and images is one way of telling the story of modern America and Semonche tells that tale with insight and flair Despite the varieties of censorship running from self censorship to government bans a common story is told Censorship whether undertaken to ward off government regulation to help preserve the social order or to protect the weak and vulnerable proceeds on the assumption that the censor knows best and that limiting the choices of media consumers is justified At various times all of the following groups were perceived as needing protection from sexually explicit materials children women the lower classes and foreigners As social and political conditions changed however the simple fact that someone was a woman or a day laborer did not support stereotyping that person as weak or impressionable What would remain as the only acceptable rationale for censorship of sexual materials was the protection of children and unconsenting adults For each mode of media Semonche explains via abundant examples how and why censorship took place in America Censoring Sex also traces the story of how the cultural territory contested by those advocating and opposing censorship has diminished over the course of the last two centuries Yet Semonche argues the censorship of sexual materials that continues in the United States poses a challenge to the free speech that is part of the foundation upon which the nation is built Indeed in an era in which sexual images are pervasive and the need for reliable information about sex and sexuality is growing he questions the remaining rationales for censorship and the justification for placing obscenity outside the protection of the U S Constitution

TV in the USA Vincent LoBrutto, 2018-01-04 This three volume set is a valuable resource for researching the history of American television An encyclopedic range of information documents how television forever changed the face of media and continues to be a powerful influence on society What are the reasons behind enduring popularity of television genres such as police crime dramas soap operas sitcoms and reality TV What impact has television had on the culture and morality of American life Does television largely emulate and reflect real life and society or vice versa How does television s influence differ from that of other media such as newspapers and magazines radio movies and the Internet These are just a few of the questions explored in the three volume encyclopedia TV in the USA A History of Icons Idols and Ideas This expansive set covers television from 1950 to the present day addressing shows of all genres well known programs and short lived series alike broadcast on the traditional and cable networks All three volumes lead off with a keynote essay regarding the technical and historical features of the decade s covered Each

entry on a specific show investigates the narrative themes and history of the program provides comprehensive information about when the show started and ended and why and identifies the star players directors producers and other key members of the crew of each television production The set also features essays that explore how a particular program or type of show has influenced or reflected American society and it includes numerous sidebars packed with interesting data related information and additional insights into the subject matter

Introduction to Physical Education, Fitness, and Sport Daryl Siedentop, Hans Van Der Mars, 2022-06-06

The ninth edition of *Introduction to Physical Education Fitness and Sport* is as robust and instrumental as ever for students preparing for careers in the various physical activity fields And the latest version of this long running and seminal text is chock full of new material for budding teachers coaches fitness professionals recreation leaders and program leaders This book covers a broad spectrum of careers and professions including those in physical education health dance fitness sport recreation athletic training and athletic administration The authors provide an overview of the respective professions and offer a deep dive into individual careers In addition the text explores the role of public policy across local state and federal levels noting how various physical activity professions are affected by regulations New content in this edition includes the following Five new chapters cover dance education recreational leadership health education contemporary physical education curriculum models and exemplary physical education programs Updated content on how economic racial and ethnic disparities affect physical activity and physical activity professions will help students anticipate real life issues New evidence data and information throughout the text will help students understand the issues problems and programmatic solutions in the various fields as they prepare to meet and solve those problems The expanded and updated physical education chapters reflect current trends and developments The new chapters on dance education recreational leadership and health education broaden the book s scope as they show the role these allied physical activity professions play in the larger efforts to promote and support physical activity as a way to create a healthy citizenry All chapters throughout the text have been updated to reflect the most current information on the topics And the book s web based ancillaries which include a range of instructor tools have also been revised and expanded

Introduction to Physical Education Fitness and Sport is organized into six parts Part I provides a thorough understanding of the health issues related to physical inactivity and of the evolution of physical activity programs Parts II III and IV focus on concepts programs professions and barriers to overcome in physical education fitness and sport respectively Part V delves into the allied physical activity professions of dance and dance education recreation and health education exploring the concepts professions and issues in each area Part VI tackles the subdisciplines of kinesiology that support physical activity such as exercise physiology sport pedagogy sport and exercise psychology sport philosophy biomechanics and more *Introduction to Physical Education Fitness and Sport* will help students make more informed career choices understand the professional issues they will face and be in a better position to develop high quality programs and make those programs widely available

Ultimately this book will help new generations of physical activity professionals provide positive solutions to the problems that exist in their fields and to make lifelong impacts on their students

Best High School Musicals Brian Stewart, Getting teenagers ready for life is a challenge to every teacher How do you teach them about what is coming up without crushing their inherent sense of innocence Life is hard but it also is often very good This collection of musicals will help take them into a world ruled by others without the shock value that so much literature wishes to display

Disco Frank DeCaro, 2024-10-15 This dazzling volume shines new light on the songs styles and enduring pop culture impact of the 1970s musical genre that emerged from Black and Latin queer culture to take the world by storm Half a century after the drug fueled DJ driven glamour drenched musical phenomenon of disco was born at a New York City loft party disco s musical and fashion influences live on in popular culture This is a frolicking entertaining yet serious tribute to the overlooked art form of disco which has never been given its proper due nor taken its true place in the historic struggle for LGBTQ gender and racial equality Painting a vivid portrait of this provocative era DeCaro explores the cultural importance of disco and how the music and dance that originated in queer Black and Latin clubs of the day became a mainstream phenomenon changing our culture along the way With glamorous photos from disco s heyday up through today DeCaro examines disco s pervasive influence on pop culture over the last fifty years exploring disco in film and television as well as in fashion and interior design Through entertaining texts as well as interviews with artists and celebrities of the era such as Donna Summer and Grace Jones among others this book champions the diverse origins of disco while celebrating its influence on today s groundbreaking artists such as Lady Gaga Duo Lipa and Miley Cyrus A must for all lovers of music style and pop culture
