A Time to Dance, a Time to Die John Waller, 2008 In July 1518 a terrifying and mysterious plague struck the medieval city of Strasbourg Hundreds of men and women danced wildly day after day in the punishing summer heat Their feet blistered and bled and their limbs ached with fatigue but they simply could not stop Throughout August and early September more and more were seized by the same terrible compulsion By the time the epidemic subsided heat and exhaustion had claimed an untold number of lives leaving thousands bewildered and bereaved and an enduring enigma for future generations This book explains why Strasbourg's dancing plague took place In doing so it leads us into a largely vanished world evoking the sights sounds aromas diseases and hardships the fervent supernaturalism and the desperate hedonism of the late medieval world At the same time it offers insights into how people behave when driven beyond the limits of endurance Not only a historical detective story A Time to Dance A Time to Die is also an exploration of the strangest capabilities of the human mind and the extremes to which fear and irrationality can lead us
