In Pursuit of German Memory Wulf Kansteiner, 2006 Wulf Kansteiner shows that the interpretations of Germany s past proposed by historians politicians and television makers reflect political and generational divisions and an extraordinary concern for Germany s perception abroad

Divided Lives Cynthia A. Crane, 2003-03-05 This book brings together the horrifying real life stories of women who woke up one day and were not who they thought they were The government changed and they suddenly no longer had the right kind of blood the right name the right family background the right physical features to be considered a member of society city or state These stories are from German women who were a part of a Jewish Christian mixed marriage and were subsequently persecuted under the Nuremberg laws Hitler called them mischling half breeds however they have often been passed over in studies of the Holocaust perhaps because they are often not considered real Jews But these women are still struggling with the nightmares of the Third Reich and the Holocaust the loss of family in concentration camps and with their own identity divided between their Jewish and Christian roots Often their Jewish background was revealed to them only after Hitler s laws were passed These are the narratives of eight women who remained in Germany struggling to reclaim their German heritage and their cultural and religious identity The narratives are compelling and sensitively written addressing questions of cultural and ethnic identity

Popular Historiographies in the 19th and 20th Centuries Sylvia Paletschek, 2010-12-01 Popular presentations of history have recently been discovered as a new field of research and even though interest in it has been growing noticeably very little has been published on this topic This volume is one of the first to open up this new area of historical research introducing some of the work that has emerged in Germany over the past few years While mainly focusing on Germany though not exclusively the authors analyze different forms of popular

historiographies and popular presentations of history since 1800 and the interrelation between popular and academic historiography exploring in particular popular histories in different media and popular historiography as part of memory culture

Contemporary Jewish Writing Andrea Reiter, 2013-11-12 This book examines Jewish writers and intellectuals in Austria analyzing filmic and electronic media alongside more traditional publication formats over the last 25 years Beginning with the Waldheim affair and the rhetorical response by the three most prominent members of the survivor generation Leon Zelman Simon Wiesenthal and Bruno Kreisky author Andrea Reiter sets a complicated standard for who is Jewish and what constitutes a Jewish response She reformulates the concepts of religious and secular Jewish cultural expression cutting across gender and Holocaust studies The work proceeds to questions of enacting or performing identity especially Jewish identity in the Austrian setting looking at how these Jewish writers and filmmakers in Austria perform their Jewishness not only in their public appearances and engagements but also in their works By engaging with novels poems and films this volume challenges the dominant claim that Jewish culture in Central Europe is almost exclusively borne by non Jews and consumed by non Jewish audiences establishing a new counter discourse against resurging anti-Semitism in the media

The Concise Cinegraph Hans-Michael Bock, Tim Bergfelder, 2009-09-01 This comprehensive guide is an ideal reference work for film specialists and enthusiasts First published in 1984 but continuously updated ever since CineGraph is the most authoritative and comprehensive encyclopedia on German speaking cinema in the German language This condensed and substantially revised English language edition makes this important resource available to students and researchers for the first time outside its German context It offers a representative historical overview through bio filmographical entries on the main protagonists from the beginnings to the present day Included are directors and actors writers and cameramen composers and production designers film theorists and critics producers and distributors inventors and manufacturers An appendix includes short introductory essays on specific periods and movements such as Early Film Weimar Nazi Cinema DEFA New German Cinema and German film since unification as well as on cinematic developments in Austria and Switzerland Sections that crossreference names around specific professional groups and themes will prove equally invaluable to researchers

Psychology Science ,2003 **Continuity and Change in City Protestantism** Lisa Strübel,2005 **Visualizing the Imagined Community** Mark Wolfgram,2001 The author uses a comparative methodology to observe how two different German societies and political systems East and West Germany managed the reconstruction of German nationalism after Hitler and World War II Working with the theoretical concept of collective memory the author shows not only how the representations of the Nazi era have changed over time but also offers explanations of why they changed in the manner that they did The author draws links between these changing representations of the past or collective memory and political consequences for both German societies in terms of democratization the formation of an ethically based civil society and the possibilities for reconciliation and forgiveness
