**My America** J. R. White, 2010-11-12 There is no available information at this time *The Politics of Remembrance in the Novels of Günter Grass* Alex Donovan Cole, 2022-11-30 This manuscript argues for the importance of Günter Grass as a political thinker in addition to his status as a novelist and public intellectual capable of forming ethical responses to contemporary issues like neoliberalism and place of the petit bourgeoisie in social life I define Grass's trajectory as a thinker through his novels and speeches Primarily I draw attention to the role memory plays in Grass's thought that his work represented an intellectual and aesthetic response to the role Nazism continued to play in West German politics in the post war era To Grass Nazism represented a resurgent threat unaddressed following the end of World War II Later Grass amended his concept of memory politics to address neoliberal capitalism reiterating his radicalism and affirming the need for German society to resist the rise of extreme ideologies Der Naturforscher, 1924 The Indian Medical Gazette, 1908

attention in the press and inspires books about the exploits of famous fraudsters as well as scholarly articles and monographs. But missing until now has been a big picture look at the phenomenon of art forgery. *The Many Faces of Art Forgery* provides a unique treatment that features historical highlights, philosophical insights, psychological profiles, economic theories, and legal statutes and cases. Key features include: The story of art forgery from antiquity to the present, including 80 named forgers, the tricks of their trade, and the social forces that ensure the existence of their enterprise; How scientific analysis is both effective and limited in exposing art fakes; Multiple definitions for the term forgery as applied to art; The effect on authenticity in legal terms, philosophical terms, and public opinion when an artwork undergoes extensive restoration or artists hire surrogates to make their works or they appropriate images from other artists or styles from indigenous cultures; Forgers' mentalities, their motivations, rationalizations, and strategies; The ethics of art forgery from criminality to esteem for fooling experts; The possibility and aesthetic worth of a perfect fake. In all, readers will understand the substantial place forgery occupies in the realm of art, as well as that what constitutes authentic versus inauthentic is not always clear-cut, nor are legal and moral judgments about forgery. In conveying this message, the author provides a wealth of information in an accessible and engaging style suitable for experts and general readers alike.

**Beyond 1989** Keith Bullivant, 1997. With the opening up of the East in the autumn of 1989, claims were being made on the one hand that German literature had never in fact been divided, while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era. *Der Tropenpflanzer*, 1907. *Gartenwelt*, 1918. *Beihefte zum Tropenpflanzer*, 1907. *Dimension 2*, 1995. *Fischerei-Zeitung*, 1915. **Contemporary Authors of the German-speaking Countries of Europe** Margrit Beran Krewson, 1988. **The Encyclopedia of Fantasy** John Clute, John Grant, 1999-03-15.
