Die Schöpfung Joseph Haydn, 2009 DAS BUCH DER SCHOPFUNG SEFER YEZIRAH, 1894 **Russian Court Chapel Choir** Carolyn C. Dunlop, 2013-12-19 This detailed account of the Kapella Russian Court Chapel Choir examines the influence it exerted on the development of Russian sacred music The educational importance of the institution has always been overshadowed by the achievements of the St Petersburg Conservatoire Dr Dunlop investigates the consequences of the Kapella's monopoly on music publications The wonderfully rich choral repertoire of the Russian Orthodox Church has until now been unavailable to most English speaking choirs due to the problems of language and accessibility Two volumes of Russian Court Chapel Choir music Galuppi to Vorotnikov and Bakhmetev to Lyapunov are available separately in performing editions They are easily accessible sources of nineteenth century Russian choral pieces by a range of composers in a variety of styles Carolyn Dunlop received a postgraduate degree in Russian language from the University of Strathclyde She was awarded her doctorate in Russian Orthodox Church music

Esoteric Catholicism / Esoterischer Katholizismus Viktoria Vitanova-Kerber, Helmut Zander, 2025-05-06 Catholicism and esotericism seem to have hostile relations but in fact the opposite is true In both traditions we find stigmata revelations visions magic spiritualistic contacts We explore which are the theological and sociological concepts which make this possible The porous transfer zone between orthodox theology and heretical ideas is central For example the legitimating structure of scripture and tradition allowed for the integration of religious practices that did not originate in Christianity or justified revelations apart from the Bible This kept groups within the church which in Protestantism were often separated and thus hardly noticed by researchers This means for religious studies to revise the strongly Protestant boundary work to determine the demarcation lines of a Christian orthodoxy and thereby to redefine the role of spiritualistic theologies Catholicism is characterized here by a border landscape in which esoteric ideas were flexibly adapted and in which one often renounced the definition of a precise eliminatory boundary line
